

# Seen, Heard and Told

By The Editor

As one taxpayer we heartily approve of the action of the Board of Aldermen in raising the monthly salary of an alderman from ten dollars to twenty-five dollars. It is the aldermen, not the Mayor, who do the work and take the responsibility. There is no logical reason why the mayor should receive over twice as much as all six aldermen put together. It is just one of those customs which, without rhyme or reason, has grown up in this city.

The office of Mayor is a small city like Grenada should really be considered as a post of honor, and not a post from which the incumbent would receive a relatively large salary.

In fact, we believe that the Mayor should receive the same compensation that the aldermen receive.

We also approve of the action of the City Council in putting the proposal to build a municipal electric plant, "on ice" until the national emergency is over. This, of all times, is no time to use valuable mechanics and valuable materials in fabricating duplicate facilities, even if the OPM should permit such action, which is doubtful.

When times get normal again, and there is a CERTAINTY that a municipal plant WILL actually pay for itself while supplying power at CHEAPER rates, the proposition to build a municipal plant should be brought to life again.

We still believe that the City of Grenada should investigate the matter of creating a project, cooperating with the WPA, in extending its sewer lines and its water lines, based upon a comprehensive plan, such a plan to be made by a competent engineer. The City's part of the money could be obtained by a small bond issue to be paid from receipts from the Water Department. The bit and miss plan heretofore employed in extending lines is by no means economical. We need not worry about WPA labor, for there will be a reservoir of such labor in and about Grenada as long as the WPA lasts.

Do not forget to come out and hear Ross Collins and his jug band tomorrow (Friday) afternoon. He is a man who received national recognition for his insistence, long before this war, that the U. S. Army be fully mechanized. His theory was that civilians no longer traveled in buggies or rode horses, so why should the soldiers be transported by such means. Time, the great tester, has vindicated his judgment.

Many of our readers get great encouragement from reading Mr. Allen's articles concerning the war. His logic is almost perfect. Many of his prophecies, previously published in this newspaper, have materialized.

Gin tickets are now in order. Get your from the GCW.

The Tie Plant boys put the big pot into the little one and made hash out of the skillet Saturday, and everybody had a bully time.

We see where the board, in an economy move, took Cowatcher Smith out of a salary and put him on a commission, or fee basis. The more cows he catches, the more money he gets. We also see where the board raised the salary of Street Commissioner Talbert from \$100 to \$125 per month.

Grenada faces a fine Fall business in spite of the pessimistic boll weevil waiting. Time will show that there is a bit of cotton in this county. In fact, we never knew a person who could even half way estimate a cotton crop. When I was a farmer, I told them I would wait and count the bolls, and let the Lord take care of the bolls.

Brother Solar lost his copy of last week's GCW and raised all manner of Hell about it, until he received a duplicate. Folks cry for it like a drunkard cries for a dram.

It is our honest opinion that no soldier boy will return home until the emergency is over or until he is physically incapacitated. That may require a year, or five years.

We believe that all physically fit members of Congress should volunteer their services the day after they vote to send America into the war. Why be reluctant to take the medicine that they prescribe for your boy and my boy?

We may vote for one of these candidates IN SPITE OF his sponsors. Some will not.

Hubert Stephens and Bilbo; England and Russia. This campaign and this world war certainly make funny bedfellows.

Better get that dog vaccinated. We were saved that trouble and expense as somebody vaccinated our Bilbo with arsenic.

## FIRST SECTION

# The Grenada County Weekly

VOLUME FIVE

GRENADA, GRENADA COUNTY, MISS., THURSDAY, AUGUST 14, 1941

NUMBER THREE

### Hon. Ross Collins to Speak Here Tomorrow Afternoon

Hon. Ross Collins, 20 years in Congress, and now a candidate to succeed the late Senator Pat Harrison, will speak in Grenada tomorrow, Friday, at 3 p. m. Daylight Saving Time. The Parker family with their hill-billy band will give two hours of entertainment before and after the speaking.

Mr. Collins served Mississippi two terms as its Attorney General, has served his district ten terms in the House of Representatives and was once an unsuccessful candidate for U. S. Senate.

He is nationally recognized as the first congressman to advocate mechanization of the U. S. Army and has received much favorable mention since his prophecies have come true for his advanced ideas along this line.

### Annual Safety First Picnic At Tie Plant

The annual "Safety First" picnic and barbecue was pulled off in grand style Saturday afternoon and evening last week. An abundance of barbecued meats, pork, chicken, mutton and beef, as well as steaming pots of Brunswick stew, cold drinks, pickles and so forth was served the local officials, a number of invited guests from Grenada and about thirty out of town people, most of whom are connected with Woods Products Corporation. Messrs. Ben McElwath, John Nichols and E. B. Lewis seemed to be in charge of arrangements and well enacted their roles as quartermasters.

The following out of town guests were present: from Jackson, Mr. and Mrs. McGraw, Mr. and Mrs. Reeves, Mr. and Mrs. Fenwick, Mr. and Mrs. Harmon, and Mr. E. L. Atkinson; from Memphis, Mr. and Mrs. W. D. Humphreys, Mr. and Mrs. Dewey Berry, Mr. and Mrs. C. L. Lord, Mr. and Mrs. C. S. Burt, Mr. and Mrs. Heinrich and son, Mrs. Lloyd Higgins and Mr. C. R. Sizemore; from Little Rock, Mr. A. M. Smith; from Montgomery, Alabama, Mr. Carl Laver, Mr. and Mrs. J. J. Nichols, Jr., Mr. J. B. Payne, Mr. D. W. Dees, Mr. H. L. Lett and Mr. Dick Dondalay; from Birmingham, Mr. Millington; from Houston, Mississippi, Mr. T. J. Lowery and brother and Mr. Hadley; from Hattiesburg, Mr. and Mrs. S. E. Krueger and from Coffeeville, Mr. W. F. Fredrick.

### Gore Springs School Opens Aug. 29th

A program of unusual interest to people who are interested in school and school work generally has been arranged for the opening exercises of the Gore Springs High School on August 29. The customary community get-together meeting will again be the order of the day. The public is cordially invited to attend and bring the usual well-filled basket for the fine dinner that has helped to make the day a tradition for the Gore Springs people. State Superintendent of Education J. S. Vandiver will be the feature speaker of the day. It will be Mr. Vandiver's first visit to the school and it is hoped that every person living in the territory served by the school will take advantage of this opportunity to hear him.

The program:  
9:30 devotional exercise and announcements.  
10:30 registration for free textbooks and classification of high school pupils.  
12:00 dinner.  
1:30 address by Mr. Vandiver.

Well, Cousin Claud Perry has certainly been consistent in his votes on the board. The people petitioned the board not to spend any more, and Claud has never failed to vote against spending any more. Consistency is a jewel, if a rare and precious one.

### Thomas M. Perry Died At Sanatorium Friday

Thomas Moore Perry, 37 years of age, died at Sanatorium, where he had been a patient for several years, early Friday morning, August 8, 1941.

He was the second son of Mr. and Mrs. J. B. Perry, Sr., of Grenada, and was born in this city in 1904. He received his education in the Grenada City Schools and afterwards was graduated from Mississippi State College. Like his father, he followed the gin business and the cottonseed oil business, and his last business connection was the management of a cotton gin at Goodman. There he met the lady, Miss Killabrown, who became his wife. Two sons came to this union. While possessing his health, he was known for his keen attention to business and made a success of it. While lying in the sanatorium, he was known for his patience and bravery in submitting to many operations.

He was buried in Goodman, the home of his wife, on Friday afternoon, Rev. Glen Eric Wiley, pastor of the First Baptist Church of Grenada, the church to which the deceased belonged since childhood, was in charge of the services. The many people who went from Grenada and the profusion of flowers that covered his casket attested to the love which Grenada and Goodman people had for him and for members of his family.

Surviving him are his widow and two sons: his parents, Mr. and Mrs. J. B. Perry, Sr., of Grenada; three brothers, J. B. Perry, Jr., of Grenada, Ray Perry, of New Orleans, and George Perry, of Camp Walters, Texas; and two sisters, Miss Louise Perry and Mrs. O. R. Lilly, both of Grenada. To the sorrowful ones, we extend our sympathy.

### F. H. "Patsy" Jones Buried In Memphis Tuesday

Mr. Frank H. Jones, better known as "Patsy," died in a Memphis hospital Monday afternoon, August 11, 1941 and was buried in Memorial Park in Memphis Tuesday afternoon.

He was born in Grenada 62 years ago and was the son of the late Sheriff G. B. "Patsy" Jones and wife. He received his education here. His first wife, who lived but a short time after her marriage, was Miss Cora George. Moving to Memphis thirty years ago, he has always been a flour salesman and sold flour for the Trenton Company.

His business brought him periodically to Grenada where everyone liked him. He was always in a good humor, was always generous and kindly. He was a member of the Idlewild Presbyterian church of Memphis, and a Scottish Rite Mason. His Memphis address was 278 North McLean Street. Surviving him are his wife, Mrs. Katherine Jones and one daughter, Mrs. Ed Thomas, both of Memphis; a sister, Mrs. Ralph King, of Monroe, Louisiana; four brothers, C. B. Jones, of Cleveland, Miss., Bobby Jones, of Kelsey, Ark., Mays Jones, of New Mexico, and J. P. Jones, of Sikeston, Mo. His step mother, Mrs. Annie Jones, of Grenada, also survives.

The writer, a long time friend of "Patsy," feels a deep personal loss.

### Mrs. Walter Crump, Former Resident Died Tuesday

Mrs. Walter Crump, many years a resident of Parsons Station in the western part of the county, died in the hospital of her home town, Walsenburg, Colorado, on August 5, 1941.

She was born in Carroll county in 1858 and was the daughter of the late Mr. and Mrs. W. D. Brock, of West, Mississippi. She married Mr. Walter Crump in 1891. The family left Grenada county 23 years ago. The immediate cause of her death was a broken hip which she sustained seven weeks ago. She was buried in the Walsenburg cemetery last Wednesday. Surviving her are her husband, Mr. Walter Crump and six children: Mr. W. B. Crump and Miss Lola Crump, of Walsenburg; Mrs. A. D. Farrior, and Mrs. J. Jones of Houston, Texas; Mr. W. D. Crump, of Sumner, Mississippi and Mr. Marvin Crump, of the State of Nevada. Two brothers, Dr. W. G. Brock, and Mr. G. E. Brock, both of West, Mississippi and three sisters, Mesdames V. S. McClellan, of Canton, Mrs. A. S. Hill, of Holcomb, and Mrs. C. E. Holcomb, of San Mandro, California, also survive her.

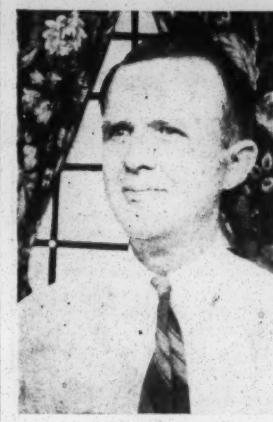

### Quantrell Building Started

The concrete pillars for the handsome new building for Quantrell Chevrolet building on Highway 51 in South Grenada, were poured Thursday of this week. Rapid progress will be made on the erection of this building. It is hoped.

Thus Grenada Grows.

### Chapman Wins Recognition In Sales Contest

Mr. Chapman, owner and manager of the local Piggy Wiggle Store is the recipient of a combination radio and phonograph from the parent company for having scored the second highest percentage gain in sales in May and June, 1941, over the similar months of 1940, among the thousands

of Piggy Wiggle stores which operate not only in continental United States but in the island possessions and dependencies. Mr. G. C. Brannon who organized the Piggy Wiggle store in Grenada is the district manager of this district.

Mr. Chapman bought the business on September 1, 1939 from the N. N. Wrights and has operated the store since that time. He and his wife and daughter came to Grenada from Batesville, where they operated a grocery store, but he was formerly a cotton planter in Leflore County.

At the present time Mr. Chapman is engaged in extensive improvements and modernization of his place of business. New equipment is to be added to a greatly enlarged market. Display equipment is being added, while a one hundred percent increase in shelf capacity is being installed, and a dining 750 square foot to his display capacity. This store handles practically all of the nationally advertised food products.

Working with Mr. Chapman are Messrs. L. V. Leggett, J. R. Bailey and Harris R. Whitten, and "Baz."

The winning of this coveted prize indicates two things, viz: that Mr. Chapman is a wide awake, aggressive merchant, and, second, that Grenada is a splendid business town.

Congratulations are in order.

## Who's At The Hospital

BY AINT THEY SWEET

Patients in the Grenada Hospital: J. W. Sanders, Colia; Barbara Ann Wilson, Grenada; Betty Jean Wilson, Grenada; Mr. F. A. Eubanks, Colia; Miss Grace Pryor, State Springs; Mr. O. G. Thompson, McCarley; Mr. J. F. McRae, Holcomb; Herschel Saucier, Coffeeville; Mrs. Robt. B. Hill and Mary Lynn Hill, Carrollton; Mrs. R. E. Coruso, Grenada; Miss Ann Odum, Grenada; Miss Bernice Cox, Stuart; Mrs. J. T. Sudick, Black Hawk; Mr. Hallin Webb, Grenada; Mrs. Carrie T. Hinson, Grenada; Mrs. B. F. Eubanks, Colia; Dorris Hill, Duck Hill; Mrs. Lillian Moore, Winona; Robbie C. Sanders, Vance Mrs. Carrie Womack, Coffeeville; Mr. J. F. Locke, Winona; Leonard Peters, Grenada; Jacqueline Badders, Grenada.

Dismissed: Mrs. B. J. Anderson, Grenada; Mr. C. L. McNeil, Jackson; Mrs. J. E. Coker, Holcomb; Benson Merritt, Big Creek; Sidney Smith, Grenada; Miss Christine O'Neal, Plattsboro; Miss Ruth Countiss, Plattsboro; James H. Gray, Grenada; Mrs. W. M. Gray, Grenada; Dorris McCorkle, Oakland; Thelma Jean Scott, Holcomb; Boyd Sturdivant, Coffeeville; CCC; Mr. D. M. Taylor, Jr., Grenada; Mary Louise Kounce, Graysport; Samuel Everett Enid; Walter Allen McCool, Grenada; Patsy Ruth Shelley, Philadelphia; Doris Hill, Duck Hill; James W. Williams, Batesville; Miss Lois Brannon (student nurse) Grenada Hospital; Mrs. M. James, Grenada; Mr. Ward McCalop, Carrollton.

### 106 DEGREES MONDAY NOON

The thermometer in front of Lick-folds, which is considered the standard for Grenada (registered 106 about noon Monday—the highest for 1941. A welcome shower fell about 2:30 p. m. and this caused the mercury to drop to 93 at 3 p. m.

### HON. WALL DOXEY SPOKE AT GRENADA FRIDAY NIGHT TO LARGE CROWD

#### Municipal Plant Buried Decently Monday Nite

The proposed municipal electric plant was either buried or put into the cooling room until after the present national emergency by the City Council, by unanimous vote, Monday night. The sermon, quoted verbatim, was preached by "Deacon" Claud Perry, with the other four deacons murmuring a soft, but sincere "amen." "Parson" Sharp had little to do with the obsequies.

Before committing it to the grave, the following eloquent words were said:

"There being now before the Board the report of the engineers relative to the matter of a municipal electric light and power plant and the Board having carefully considered said report and existing conditions is of the opinion that final action thereon ought to be deferred until the present emergency confronting our Nation is passed and ended. On account of such emergency no one may safely determine what any day may bring forth. At present all electric generating equipment and distribution apparatus and Diesel fuels are under priority as of April, 1941 report of OPM. Whether such an undertaking at this time would be advisable is a question which cannot be answered at this time with any degree of certainty. It is doubtful if a plant could be acquired or erected within any reasonable time or expenditure and, if it could be, it is most likely that it could not operate and meet the necessary demands upon it for its financing if there were any material reduction of rates below those now being paid by the citizens of our City. It is not believed that our people desire to vote upon the question of acquiring or erecting a plant of our own at this time and that their best interests will be conserved by a delay of the matter for a period of twelve months and thereafter, until there is at least an approach to a normal condition of the country. This action, the Board believes, will accord with our purpose to cooperate to the fullest extent with our National Administration and will only mean a delay of our final determination upon this important matter."

"Passed unanimously."

There was no music and no flowers, and only one mourner, Mr. "Red" Briscoe. Mr. McKell of the power company arrived after the interment and, if he had any sorrow, he controlled it with becoming dignity.

Editor's Note: We think that the council did the right thing in postponing the issue.

### McLemore Rites Held In Greenwood

Funeral services for Mrs. Susie V. Hutchins McLemore, of Miami, Okla., formerly of this city, who died at a Poplin, Mo., hospital Sunday, August 10th, will be held at the First Presbyterian Church this afternoon at five o'clock, with Dr. J. P. Marion, pastor officiating. Interment will be made in the Odd Fellows Cemetery with Lee Funeral Home in charge.

The survivors include one son, Albert H. McLemore, of this city; three daughters, Mrs. Minnie McLemore Hicks, of Dreaper, Okla., and Mrs. Brown Stansel and Mrs. Perry Porter, of Miami, Okla. Ten grandchildren and five great grandchildren also survive, among whom are John Dabney McLemore, IV, and Arthur B. McLemore.

The deceased, who was 83 years of age, was a member of a prominent Texas family and a member of the Presbyterian Church. With her husband, the late John D. McLemore, he moved to Louisiana in 1919 from Greenwood before going to Miami, Okla.

Active pallbearers will be Edwin Monger, A. M. Hobbs, Green McLemore, Whitfield Purcell, Bobby Moor, George Humphreys—Greenwood Commonwealth.

Mrs. McLemore with her splendid family were residents of Grenada before moving to Greenwood, and members of the family have visited here at intervals during the past thirty odd years. The deceased had relatives in Grenada, among them were the Leigh family.

The body arrived in Grenada on No. 3 Tuesday, accompanied by a grand daughter, Mrs. Percy Smith and friends from Quapaw, Okla. The rest of the family went to Greenwood in their cars.

Friends from Grenada attending the last rites were Mrs. John Bradley, Mrs. S. A. Morrison and Mr. William Wright.

Neighbor White's baby daughter certainly is growing rapidly.

By Carolyn Whitaker,  
Political Reporter

On Friday night before a large crowd of people from Grenada and the surrounding towns, Wall Doxey, candidate for United States Senator, spoke in the Public Square of Grenada.

Mr. Robert Sharp, Mayor of Grenada, introduced Mr. Sam Mims, who has been a life long friend of Mr. Doxey. Mr. Mims' first words were: "I don't know how to talk over this microphone but I do know Wall Doxey." Mr. Mims in turn introduced Mr. Andrew Carothers who in turn introduced Mr. Doxey. Mr. Carothers in behalf of the pro-Doxey people presented Mr. Doxey a beautiful white shirt in honor of this Friday night being his birthday. Mr. Doxey's opening words were that he were to be elected U. S. Senator he would try to live up to the cleanliness of that shirt. He also said he would not wear the shirt until after the election day.

Mr. Doxey said that his record was his platform. He has in the last twenty or so years been elected as County Attorney, District Attorney, and for the last thirteen years has been Congressman from the Second District. He was educated at the public schools of Holly Springs and received his B. A. and Bachelor of Law degree at the University of Mississippi.

In Washington Mr. Doxey holds many responsible positions. One of the most important is the Agricultural committee. He has introduced and seen to it that many bills have passed the House and the Senate which have helped the farmers a great deal. One of the most recent in the Crop Insurance Bill which insures the Farm crop from storms, flood, boll weevil, and similar conditions that cause disaster among the farmers. He said one of his chief purposes when he went to Washington was to help the farmers. He said if elected he will continue to do so.

Several bills of which Doxey is the author is the Doxey-Smith Classification Act, the Doxey Seed Bill, and the Doxey Spin and Test Bill. One of his bills says that the AAA will continue to be in effect until something else better can take its place.

Another bill which he had passed is the Forest Restoration Act. It is his hope that much of the Mississippi Timber can be restored and to cut out all waste. This act provides for a Government advisor to help those who are interested in building up their forest lands.

Mr. Doxey stated that in Hattiesburg, he was asked how he stood about the old age pension. He said he would not get the peoples' hopes up that there would be a very large old age pension. He said that the act said that the United States government would match the money given to the people by the state government. Since Mississippi can't afford to put up but a few dollars, the Federal government will only put up the same small amount. He said he would rather not get the peoples' votes if he had to get it by rash promises.

Mr. Doxey stated that he had voted for the Lend-Lease Bill and had been for all things toward our National Defense. He strongly favors aid to Britain and is all out to help get the U. S. A. prepared to face all problems that might arise. He has always voted for such bills as the NYA Bill, the CCC act, and all vocational and educational acts.

Mr. Doxey closed by saying that he enjoyed speaking before such an interesting crowd and he hoped that by this speech he had influenced many Grenadians to vote for him on September 23rd.

### Williams For Doxey

Don't kid yourself and don't let anyone kid you! Wall Doxey is so far out in front in this senatorial race, his dust has already settled - just as it is a settled fact that he will be our next United States Senator.

It must be a grand and glorious feeling to have the support of such a great majority of fellow Mississippians for the highest honor in their gift - that's Doxey!

ALL FOR WALL - WALL FOR ALL  
Don't forget the date to vote  
September 23rd.

Homer J. Williams,  
Grenada County Chairman

### Aldermen's Salaries Upped

At the meeting of the City Council Monday night, the monthly salaries of the aldermen were raised from ten dollars a month to twenty-five dollars per month. Perry and Burt voted "no."

Unless we get more ads, we are going to have to start preaching. That is a grander life than editing anyway, tho with false teeth eating chicken would be seriously handicapped.

Other News Used Only in Emergencies"

THURSDAY, AUGUST 14, 1941

## Herbert B. Allen

Now since the Secretary of our Chamber of Commerce has burst into poetry, using the editor as a subject, we feel that we are entitled to write a prose editorial about him.

The Bible says that without vision the people perish. Vision, of course, deals with the future; retrospection and ancestor worship deal with the past. No man who ever even passed through Grenada has greater visions than Mr. Allen has, and no man ever worked harder for longer hours to bring visions to reality than Mr. Allen has done, is doing and will continue to do so long as he has the support of the people that he now enjoys.

He sees the fertile Delta country a bare score of miles to the west which is capable of producing concentrated feeds, such as corn, alfalfa and soy beans in almost unlimited quantities; he sees the hill section capable of furnishing almost unlimited pasturage for cattle and capable of producing sweet potatoes subject to conversion into cattle feed; and he visualizes Grenada—in the mid position in this set-up—as a logical site for a packing plant.

He sees the statistics that show that there is at the present time practically no foreign market for Southern cotton; he sees the statistics which show the enormous growth of cotton production in South America and the almost unlimited amount of land in that continent that is susceptible of successful cotton production; he sees that the only things that make cotton even a fair gamble today are the heavy governmental subsidies; he sees the terrible repercussions that will come with the withdrawal of the government from the cotton market; and he visualizes the enormous potentialities of this section for the production of sweet potatoes for processing into livestock feed and into starch and for the production of peanuts into the thousand and one useful things which come from the humble goober and for the production of soy beans for conversion into food for man and beast, for soy bean oil, for plastics and for other things useful to man. He sees the Northern manufacturers gradually abandoning the use of steel and he visualizes the replacement of steel by plastic compounds. In the replacement of steel by plastics, he visualizes an industrial revolution almost as great as the revolution which replaced the mule and horse with the automobile and the tractor. He visualizes the time, now close at hand, when the products of the top soil will largely replace the products which have been mined from the bowels of the earth.

Quite by accident, he found out from the engineers at Vicksburg—for he was conferring with them upon an matter—that the Yalobusha dam was a "live" proposition and it is very likely to be built; and he visualizes the huge lake that will be formed and the ideal recreational facilities that this community will afford not only to the local people but to the people from afar; he visualizes a huge rayon mill, one of whose chief requisites is an abundance of water, erected here to use native cotton and flinters and either native woods or wood brought in principally by water from abroad.

Finding out that the Secretary of War had designated the Grenada area as a camp site should the army be increased, he was disappointed to find out also that General Marshall, the technical adviser of the Secretary of War, had turned thumbs down on small communities incapable of adequately furnishing recreational facilities to large numbers of soldiers. Did he quit? No, his vision started "working" again. He visualized the proximity of Memphis, of Jackson, of the Sardis Dam area and of the various State parks, and he visualized solid trains of pleasure-seeking soldiers (who could not receive desired recreation locally) paying nominal round-trip fares to these larger places. Seeking to produce results from his visions, he contacted the big men of Memphis, and Jackson, who heartily agreed to cooperate; he contacted the Army Engineers at Vicksburg to secure accurate data on Sardis Dam area, and he contacted Jack Bevin, President of the L. C. System, who agreed to furnish all the cars necessary, and who further agreed to supply, at the L. C.'s expense, two economists to work with Allen in the furtherance of this (and all other plans) plan. After presenting these data to the Second Assistant Chief of Staff of the U. S. Army, he returned to Grenada and reported that, should the army be expanded in accordance with General Marshall's wishes, he believed that an army camp would be located in Grenada. We may call him a "man of vision," but we must also call him a man most conservative in his statements and promises, as in the case of the proposed army camp. He merely said that it was his opinion that the camp would be established if the army was expanded. He has often stated that he gets greatest pleasure, however much work is entailed, in converting apparent liabilities into assets; and, if he does get a camp here, he certainly should be credited with converting Grenada's liabilities into golden assets.

Mr. Allen can talk to big men in their own language. We know that he—in the few months he has been in the South—has made personal acquaintance with more "big men" of the South and can secure cooperation and help from these big men, than any five men who have lived in Grenada all their lives.

We believe that we know Mr. Allen better than any other person in Grenada knows him and, therefore, we feel privileged to make some personal observations about him. In the first place, he does not give a damn about money, except enough to live on. He stated to the two gentlemen who concluded the agreement with him that he would just as soon work for fifty a month if he were not married—and we believe he meant it. . . . He has traveled the entire world and, being most observant, knows conditions in every part of the world. . . . those who read his articles and those who have heard him talk will remember that he often uses the terms, "The English-speaking world" and the "Anglo-Saxon" . . . statistics open to all show that Mississippi has the lowest per capita income and the lowest per capita wealth of any part of the "English-speaking" world, and

that Mississippi vies with South Carolina in its shameful illiteracy, and these facts have been confirmed by Mr. Allen's research and observation. . . . we sincerely believe that Mr. Allen, seeing that Mississippi is the poorest part of the English-speaking world, is sincerely desirous of devoting his talents to raising the standards of living in, first, Grenada County, then Mississippi, with the hope, once started here, progress will be made throughout the entire Southland. . . . we believe that he, like other unselfish characters of the past, wishes to leave the world, and particularly this part of the "English-speaking world," better than he found it, and that, when he lays down life's burdens he can do so with the consciousness that he has done something worthwhile for his fellow Anglo-Saxons.

Call him a dreamer if you want to, but he works an average of twenty hours a day to bring his dreams to fruition.

"Without vision, the people perish."

## Hold The Boys

While we wait our son (who is a member of the National Guard in service now in Louisiana) to come home in December, and this is a natural, parental desire, we do not believe that he or any other soldier should be released until after the emergency is over.

At the very best, the new men in the army are only half-trained. Lacking equipment they may have a willing spirit, but they have nothing to do anything with. Release these men, and what have we? We would have some half-trained men in reserve and a bunch of recruits in the army.

Since we are practically "in" the war up to the neck, any effort short of a supreme, all-out effort would be foolish, and the most foolish thing to do in this case would be to release men who already have SOME (however little) training.

If we should get into this war, as seems more and more probable, the ban on using soldiers too should be removed. We, of course, would hate to see our boy and the other boys be sent abroad (as we were 23 years ago), but if that is the thing it takes to defeat our enemies, so be it!

## A Delicate Situation

The administration faces the solution of a very delicate problem, that of exerting a maximum war effort and at the same time so handling medium and small industries that they will help produce the taxes necessary to pay interest on the great debt being made for war purposes.

If, for example, the government requisitioned all steel for war purposes, there would be no steel for civilian construction and, as a result, carpenters, and other artisans and the contractors in communities where there is no construction for military purposes would be thrown out of work. These small communities would suffer. Incomes of the individuals in those communities would decrease and taxes from those communities would decrease.

Let's take Mr. J. H. Biddy, who operates the only machine shop in this vicinity, for an example. Suppose the government shut down on vital materials that Mr. Biddy uses in his repair work, or pre-empted say one vital material, welding compound. This action would soon stop Biddy's wheels from turning. Biddy, an expert mechanic, would be eagerly gobbled up by either of many war industries, but what of the scores of small saw mills, oil mills, printing shops, and other small industries which depend upon Biddy for repair service to their machinery?

Most sections of the State of Mississippi would be destined to suffer unless very delicate skill is exercised in the matter of allocation of materials. Mississippi, as is too well known, does not have any "war babies."

## Congratulations To The Aldermen

The aldermen took three steps which we approved Monday night.

First, they raised their own salaries from \$10.00 to \$25.00 per month. There has never been any justification for paying the aldermen one-fourteenth the amount paid the mayor. The Board of Mayor and Aldermen is the governing body of Gre ada. The Mayor is merely the presiding officer. The aldermen do the work, and get the cussing, while the mayor only votes in cases of ties. The Mayor is paid very liberally for ex-officio duties he performs in the police court. For the \$140 he receives as a salary, he does very little, if any more than the aldermen have been doing for \$10.00 per month.

Second, they put Grenada back on Central Standard time as of September 1st. Nobody ever had or ever will get accustomed to the daylight saving time. As we more or less jokingly told Horn and Greenfield about all it meant to the GCW was starting on the old time and quitting on the new time.

Third, they put the proposed municipal electric plant into cold storage for an indefinite period, and for very good reasons as set forth in their resolution published on the front page. The engineers guessed what a plant would cost and, based upon THAT guess, guessed the service rates. These rates were somewhat lower than the present rates. BUT BASED UPON A GUESS. Since guessing, the difficulty of getting basic materials for anything other than defense has become much greater. Since the guess, costs of machinery—even if procurable—and costs of fuel have advanced very much. Therefore, it appears to us, that, should a plant be built NOW, rates would necessarily be HIGHER.

Poor Mississippi.

Me and the GCW.

The GCW follows, we guess.

The South Mississippi tall has wagged the North Mississippi dog far too long.

If the people of North Mississippi would concentrate their political influence, they could have some representation at Washington. They have numerical superiority.

Young, vigorous Congressmen should enlist in the armed forces before they send your boy and my boy into a bloody war. They should be willing to take their own medicine.

## UNDER THE MAGNOLIA TREE

By Herbert B. Allen

Hot Springs, Arkansas.  
For the first time I am witnessing a Mississippi political campaign, and I am expecting the race for United States Senatorship to develop some interesting angles. More than a month remaining in which some real issues may be tried before the Grand Jury of Mississippi voters.

Apparently all of the candidates have not yet entered, for former Governor Conner, and Representative Rankin, both Mississippians long associated with public affairs, are known to have ambitions to sit in the Senate at Washington—and I do not blame them at all.

From what I read in the papers, it is evident that these campaigns commence with a very polite and elegant formulae. Some person, long associated with the candidate, sponsors him in each county town.

The ambitious one is fondly lauded as a life long friend, in some cases as a former class mate at school, and in any event, as a fellow who has succeeded in avoiding the local jail. His exemplary conduct is approved in extravagant terms, his public record is exaggerated so that his own grandmother would not recognize it, and the whole affair is distinguished by that exquisite disregard for the truth which characterizes Grand Jury proceedings in Mississippi.

The candidate then blushing acknowledges that he is the saluted personality referred to by the previous prevaricator, and declares, "My dear friends, as you know, I am an eminent statesman in Washington. My record is as pure as Mother Goose's Rhymes. I know the alphabet forward and backward. I voted for ABC, PDQ, and XYZ. The great people of this magnificent state are entitled to the very best man in Mississippi to represent them in the United States Senate. Here I am!"

In private conversations, Mississippians declare by the Bible that the New Deal of the Democratic party has ruined both the State of Mississippi in particular, and the South generally. But all this is now courteously forgotten. He's a good fellow! And this is the state in which I am told that the people take their politics seriously! Shakespeare had five words for it!

All this would be very touching, very fraternal, and very delightful—if we could afford it. Unfortunately all is not well with the South, or with Mississippi. Indeed, both are quite unwell. The great social and economic problems of the South are a most perplexing puzzle—and the future of Mississippi is blacker than the ace of spades! Good fellows are all right in their place, and their place, right now, is not in the United States Senate representing Mississippi.

South Carolina and Mississippi are nationally recognized as the most poverty stricken states in the entire American union. Politics in such states cannot afford to always remain on the old level where good fellows get together in mutual admiration meetings, ignoring the squalor and the poverty all around them, and apparently trusting in God to do something about it in due time. It might be an excellent idea if some of these good fellows read the parable of the talents in the New Testament occasionally.

The social and economic ills from which Mississippi suffers require that the keenest intelligences in this state be applied to their analysis and appraisal, in order that practical ways and means directed toward their solution be presented to the voters for their approval.

If candidates do not present such constructive plans it is direct evidence of their inability to do so—and a plain confession of their lack of originality of thought with respect to these grave problems. In short it is an acknowledgment that they do not possess that measure of personal ability that should distinguish candidates for the great office of United States Senator.

There are at least ten men in Grenada County who would make acceptable Senators, if the only requirement for the Senate was the ability to vote intelligently on the merits of Bills thought out and phrased by members of the Senate from Kansas and New York.

But our problems are in Mississippi, and in the South, and we need a man in the Senate who has the ability to introduce legislation which is directly and specifically aimed at the betterment of the conditions which we universally deplore among us—and do mighty little about! What we need is a legislator—not an observer.

The South is at a very serious crossroads. The future is extremely black—right now! And it proceeds to become blacker, day by day. Who is coming up with ideas to combat this trend of affairs? This requires more than a man who has led a good life—gone to a good school—and has a good personal reputation. It requires a man of thought—and a man of action.

Primarily, we owe a debt of gratitude to our parents for our social standing, and for the financial sacrifices they made in order to give us an education. These are not things for which we may take any particular credit. A good personal record is the ordinary qualification of a good citizen. Of itself it is not so rare, nor so distinguishing a trait, that it immediately makes a man eligible for the Senate.

In the final analysis, a university is an institution in which a man of reasonable intelligence is presumed to be taught to THINK! When brooding up the matter of education, why not give some tangible evidence of the fruits of a university education, which would reflect credit on the old alma mater?

What we would like to see in the very near future, is the introduction of some vital issues into this campaign. Let us set aside, in these times of crisis, the usual mumbo jumbo of Mississippi politics; that infernal pitting of one set of personalities and their friends, against another set of personalities and their friends—and for a change inject a little intelligence into the campaigning.

At least two of the four candidates under consider-

ation have the intelligence and resourcefulness to qualify for the important office of United States Senator. Under the Magnolia Tree we have some powerful ammunition which might be worth thousands of votes to the one who recently solicited my support—possibly enough votes to swing a close election in your favor. When YOU are ready, Sub. I am too!

## FROM A REBEL HILL TOP

By The Grenadier

So Near Springs, Texas.

As Japan nears the vertex of the whirlpool that she has deliberately created during the past ten years, greater attention is focused on the Far East than ever before in history. There are nearly as many fantastic ideas floating around the United States as to what a war with Japan would actually be like than there are alphabetical agencies in Washington.

There will be no great American armies marching against Japan. There will be no great Japanese armies marching against the United States. There is just no road to march on! Both nations are widely separated by the Pacific ocean—and neither nation possesses sufficient shipping to transport an army over that vast expanse of water. In my judgment such a war would be aerial, submarine and economic.

Fortunately for us however, the Japanese are not beyond the reach of Russian armies in Siberia. The fact that Russia is definitely known to have a very strong air force within two hours striking distance of Japan's principal cities, is the nightmare of Japanese statesmen. The city of Tokyo is considerably larger than vast Chicago—and all Japanese cities are notorious fire traps.

But let no one underestimate the Japanese army and navy. They are both formidable. Japanese soldiers are superbly brave—and in addition to that, they are religious fanatics. Their Emperor is also their God. During the Russian-Japanese war in 1905, the heroism of Japanese soldiers won the admiration of the entire world.

I recall one particular practice that made a deep impression on me when I was a little boy listening to tales of the conflict. When the Japanese placed land mines to destroy the Russians, a Japanese soldier was detailed to sit on each mine and explode it personally. As they had been taught that death in battle gave them an immediate entrance into Heaven, there was no trouble in having Japanese soldiers go to their death cheerfully when these mines exploded. Soldiers are cheap in Japan, certainly were more plentiful than land mines were in the Japanese army!

The Japanese navy gave an excellent account of itself in victories over the Russians—and American naval officers do not disparage the fighting qualities of the Japanese navy. But Japan's aviation is another matter entirely. Aviation is dependent upon personal initiative and rapid coordination of the facilities. It is very doubtful if Japanese aviation would be very effective in action against western competition. But that remains to be seen.

While Japan's position in the Far East is remote from the main naval bases of Britain and the United States, she had not calculated on the phenomenal developments in military aviation which have recently taken place. So now Japan is faced on the west by Russian air power in Siberia, and in the north by the new Alaskan bases of the American Air Corps in the Aleutian Islands. Only an examination of a round globe tells the true story of Japan's vulnerability.

Japan's liabilities appear to me to be more aerial and economic than naval and military. She can be strangled economically—and bombed out of commission. And both of these actions could be accomplished in a comparatively short time. With her exports and imports shut off from the Anglo-American nations—her imports of petroleum, scrap iron and steel, and foreign exchange suspended entirely—how long could Japan exist? That is the question of the hour? Is Tokyo.

The great gamble on which Japan set out ten years ago has ended in dismal failure. China was to be the goose that laid the golden egg. But the goose acted as geese have always acted—with very bad manners indeed. Instead of becoming a profitable goose, ungrateful China has held Japan of manpower and treasure, until the Japanese government is practically bankrupt and the country has been brought to the brink of ruin.

So as Japanese statesmen blindly stagger on their perilous path, their most ominous peril comes from the Russians in Siberia, and if Messrs. Churchill and Roosevelt are meeting on the Canadian coast, you may be sure that Russia is one of the prime topics for most serious discussion.

World conditions today make strange bedfellows. Uncle Sam and John Bull eye Comrade Stalin with cautious suspicion, and they sniff disrespectfully, wishing that he would take a good hot bath, preferably using a chemical solution which would bleach his too rosy complexion.

There are people whose opinions are more difficult for me to tolerate than a dose of castor oil. Burt Wheeler for example. Although formerly good friends in liberal circles, we parted company over the Supreme Court issue, and his present conduct is such that I would hesitate to express my opinion of it in a family journal.

But if I were stalled on a rough and muddy road, and if Mrs. Allen were in the predicament with me, and old Burt came along—I'd be very polite indeed to Mr. Wheeler of Montana, until I was out of my difficulty! And so it is with Mr. Roosevelt and Mr. Churchill with respect to Stalin. They are more or less left with no alternative but to express the famous phrase of famous Tiny Tim, "God bless us every one!" What a life!

Some tell me that the moon is white,

While others claim it's yellow;

It seems that color all depends,

Upon some other fellow!

## NEWS AND VIEWS OF THE YOUNGER SET

By The Three Listen-ers

Warren Robinson, Lil York, Emma Jean Green, and Bobby Townes went to Sardia to see the Damsite.

Dick was with Lil the other nite (Tuesday nite). Since then he had been seen around on Margin Street with the mighty attractive Louise Aven. They went to Coffeyville Friday. They were properly chaperoned by Carolyn.

Two boys in a Tennessee car drove 130 miles an hour to Grenada Tuesday to see Jane Quiggins who is visiting the Sam Mims.

It would make old St. Peter rise up and shout if he had seen some fresh man and an old junior, Lynn Rose, eating the rug at the dance.

Members of the younger set came out in their Sunday best when Mrs. Sam McCorkle entertained for her visitor, Miss Charlotte Ray, of Memphis, and her daughter Miss Margaret Ann McCorkle with a dance at the Community House Saturday night. The hall was decorated gayly for this event and the McCorkle twins presided over the punch bowl.

Jon Edgar Griffin had a jitterbugging guest from Kosciusko at the dance.

It's really good to see our old school mate, Billie, back in town from the Army Air Corps.

Some one remarked that Peggy Horn and Eleanor Green were getting ahead of Margaret.

The Cullens left for Tulsa, Okla., Saturday.

Gene Marders went to Batesville Friday.

A crowd of the younger set is going over to Chocataw Lake this week. The York (Sis and Lil) and the Pleasants (R. Mama and Hal), and Row-Rhett. They are anticipating a gala time.

There was a moonlight picnic Friday night. None of us got there but from all reports, all those folks that like moonlight, bugs and etc., had a good time. Ask Katy Carlisle what kind of shoes the chaperones wore.

## Seen, Heard and Told

By The Editor

Well, all of us escaped but a crash-cut last Friday, the day some of us receive our dose of denunciation.

Mr. and Mrs. Herbert B. Allen, accompanied by Miss Dorothy Whitaker, are absent this week, being on a business trip which will include stops at Little Rock, Hot Springs, Dallas, Shreveport, St. Francisville, Vicksburg and Jackson.

The Groundhog Barber Shop continues its predetermined course of political neutrality. The boys there figure that by salving them.

In the heat wave which slowed up everything, we believe we forgot to mention the renewal of Mrs. Paul Peoples, a deficiency that we hastily make amends for.

Everyone who met the charming Mrs. Wall Doxey was most highly impressed with her graciousness, tact, and hard sense.

We are sorry to hear that old Flier Oldenburg will probably have to be off the job for another three weeks. We hope he has plenty of fans.

Pete Simpson must be staying close to home, for he has not been seen on Beale Street in about a month.

We made a trip to the north side of the square Saturday night and noted very few, if any, changes.

If we have already mentioned the name of Brother L. P. Mistrot as a new subscriber, this item, if repeated, will help fill up a hole in the paper.

The Legion boys must be hard up for a service officer, as they elected me. No post ever had a better one than Harry Wilson whom I succeed.

Pay your subscription.

Several have braved the torrid weather to write out checks for renewals; the others are waiting either for duns or for cooler weather.

Let's get WGRM back from the swamp in Greenwood.

See where Allen Cooperage Company has bought the mill at Brandon, Rankin County. More trouble for Earl Burkley?

Everybody had a grand time at the annual picnic at The Plant Saturday afternoon and evening.

Wonder if the city ever has any printing done?

Mr. and Mrs. J. P. Coleman, of Ackerman, certainly have a fine looking three-months-old son.

See where our friend, Elliott Lawrence, got his name in Ned Lee's column, Mississippiana.

Catching a breathing spell between saving hay and picking peas, Lewis Dillard, Jr., a charter member of the GCW organization, dropped in late Saturday afternoon and renewed.

Cousin Junius Townes, Jr., who is another charter member made us happy Saturday.

## Miss Donna Robertson, Of Scooby, Passes Away

By Scooby Correspondent

Our little town was shocked Sunday afternoon, August 3 at 3:20 when Miss Donna Robertson passed away at Grenada Hospital after a short illness, she was taken sick on Wednesday night before and never was able to leave her bed after being taken. Miss Robertson had been in failing health for several months not as her friends and loved ones seriously thought and her passing away was a shock to all.

Miss Don as everyone here called her was loved by every person, old and young alike. One of the sweetest Christians we have ever known, so patient in all her illness, always a smile, never a frown.

She was born and reared here in Scooby, was the daughter of the late Mr. and Mrs. P. M. Robertson. She has spent the long years of her life here, always striving to help some poor lost person to know the sweet blessings of God that she knew and her going has left a vacant place that no one can ever fill, she will be missed so in her church for the good work she did, her friends will miss her sweet smiling face, yet—we all know she has gone to her Heavenly home to rest.

Her two sisters that she left behind will miss her most of all yet they too, realize that they will some day be with her and their other loved ones that have passed on before and know that Miss Don is patiently waiting for them beyond the clouds.

To everyone that had the pleasure of knowing Miss Don, it has been a blessing to them for just to know her was to love her and while we all know it is selfish to grieve for she is at rest, our hearts go out to her sister—she left behind, Miss Betty Robertson and Mrs. Georgie R. Wade, May God bless them and give them strength to

carry on. Her body is gone but her sweet presence is still felt in their home.

She was laid to rest in the family cemetery Monday afternoon. Bro. Waldrop and Bro. Weaver conducted the funeral services.

## SCOBEE NEWS

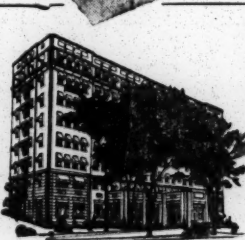

Mr. and Mrs. G. E. Carr, of Chicago, Ill., arrived Sunday afternoon to spend ten days with their parents. Mr. and Mrs. L. B. Carr and Mrs. N. L. Jennings. Mr. G. E. Carr, Jr., will return home with his parents after spending six weeks with his grandparents.

Rev. James Lippencott, of Louisville, Ky., is spending a few days with his parents, Mr. and Mrs. J. W. Lippencott.

## Rail oddities

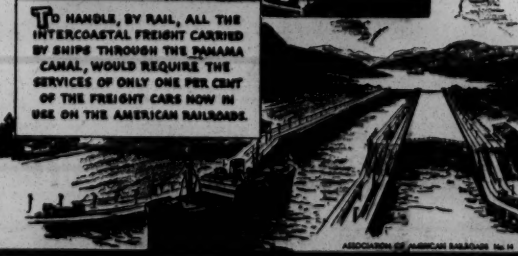

ONE TYPE OF LOCOMOTIVE HEADLIGHT USED IN THE 1830'S CONSISTED OF A BONFIRE OF PINE KNOTS BURNING ON THE SAND-COVERED FLOOR OF A SMALL FLAT CAR IN FRONT OF THE LOCOMOTIVE.

AMERICAN RAILROADS SPENT MORE THAN \$2 MILLION DOLLARS FOR TREES AND OTHER FOREST PRODUCTS LAST YEAR.

TO HANDLE, BY RAIL, ALL THE INTERCOASTAL FREIGHT CARRIED BY SHIPS THROUGH THE PANAMA CANAL, WOULD REQUIRE THE SERVICES OF ONLY ONE PER CENT OF THE FREIGHT CARS NOW IN USE ON THE AMERICAN RAILROADS.

## Plenty Of Oil For Fuel Says Local Dealer

"All evidence that has come to my attention and recent news dispatches indicate that there will be plenty of fuel oil available for oil burning equipment for home heating this winter in this locality," says Mr. Joe Neely, president of Grenada Auto Co.

"Of course, there is no actual oil shortage—there is plenty for every need. In 1940, the United States produced 63% of the world's total petroleum products," said Mr. Neely, who referred to facts and figures published by the American Petroleum Institute of New York and which shows that ample oil is available for all commercial and domestic needs. Proved oil reserves and accumulated production are now at an all-time high. Proved inventories of underground reserves of crude petroleum on January 1, 1941, totaled over nineteen billion barrels, the largest in history. So, the available supply of oil for home heating purposes is assured for many years to come.

"The Atlantic Seaboard States are the only ones affected by the transfer of oil tankers to Great Britain and a news dispatch from Washington quotes Secretary Ickes as saying that oil is now moving to the Eastern Seaboard in considerable quantities by rail because about 4,000 out of 20,000 idle tank cars have been put to use and that leaves about 16,000 more tank cars available. Also, coastwise tankers will soon increase their cargoes. So that section of the country should not experience any serious oil shortage if any at all.

"A check up with officials of the oil companies that supply our community indicates that we will have at least as much if not more fuel oil available this winter than we had last. "So we're going right ahead with our plans to offer Coleman Oil Heaters to our customers," says Mr. Neely. "We placed substantial stock orders but owing to heavy demands, our principal concern now is that we may not be able to get enough heaters to take care of all our calls for them. The factory is being flooded with orders, but we have asked for deliveries of our heaters just as quickly as possible so that our customers may take full advantage of the current low prices and get their heaters installed, ready for the finest kind of heating comfort this winter they have ever enjoyed. We consider the Coleman Heater the greatest value in heating equipment that we have ever been able to offer."

## PROGRAM OF Grenada Theatre

Night Shows start 8:30 (Daylight Saving Time) Except Saturdays, same as at present 2:30 - 3:30 7:00 - 8:30. Matinee Wednesday 4:30 (DST) Sundays 3 and 5 P.M. (DST.)

Night Shows 8:30 DST  
except Saturday

## Johnston Sees Doxey As Best Man In Race

Greenville, Miss., Aug. 13—Oscar Johnston of Scott, long a leader in Southern agricultural circles, told an audience here Wednesday night in an introduction of Representative Wall Doxey, candidate for the United States Senate, that "we are fortunate to have with us a man who has not been involved, directly or indirectly, in any of the many factional quarrels that have taken place in the state the past 30 years."

"Wall Doxey has eschewed personal politics during his entire public career," Mr. Johnston said, "and he has sought opportunities to serve his people prompted by ambition and armed with integrity and ability."

Mr. Johnston said, "and he has sought opportunities to serve his people prompted by ambition and armed with integrity and ability."

### POINTS TO SUPPORTERS

"It is a credit to the mental integrity of the people of Mississippi that when Wall Doxey announced his candidacy there came to his banner men from every political faction and from every walk of life."

"The son of the senator whom he seeks to succeed, Pat Harrison, announced his support of the candidate; the present senator announced his intention of supporting Mr. Doxey; the Governor announced a similar intention and a former United States senator, who had been defeated by the present senator, announced he was strong for Mr. Doxey."

"From every walk of life, and from every political faction, leaders in their respective communities, as well as in the state, announced their purpose of supporting Wall Doxey."

"I am supporting Wall Doxey simply and solely because I know from intimate personal contact that he is probably the best equipped man in Mississippi to serve the interests of a purely agricultural state. I know Wall Doxey talks orders from no man, that he will study and examine officially every problem that he will reach conclusions uninfluenced by the opinion of others; that he will not be dictated to and that he will not stoop to petty, cheap, political chicanery."—Commercial Appeal.

## Dexter To Continue As Head of Forestry

Grenada friends will be gratified to learn that A. K. Dexter will continue as head of the State Forestry Service at least until next June, filling out the term of Mr. Fred Merrill, whose appointment would have expired then.

Mr. Dexter is well and favorably known in Grenada where he has general supervision of the forestry work.

"The work in this department in Grenada county has reduced loss of timber and cover of grass to a minimum by the prompt extinguishment of forest fires before they gain any headway. Mr. George W. Criss is Forest Ranger in this county and has charge of the work locally."

### LOCALS

Mr. and Mrs. John McEalan and little John have just returned from a ten-day stay at Hot Springs.

Miss Shirley Ann Brinker, of Shreveport, is the attractive guest of Rev. and Mrs. T. B. Thowor this week.

Mrs. J. G. Jones and little son, also her sister, Miss Pearson, who is a member of this school faculty at Beaufort, Miss., are visiting their relatives in Laurel and Ellsville.

Turnip Seed in bulk. Most all varieties. FRENCH MARKET

Rev. and Mrs. T. B. Thowor's guests for this week end are Mrs. J. R. Brinker, Miss Carita Brinker, Miss Ann Davis and Mr. John Davis, West Point.

Sgt. M. M. Batson, of Ragley, La., spent 26 hours visiting homefolks and friends in Mississippi on Saturday. He was here for a few hours Sunday to see his brother, Mr. Juel Batson and wife.

Mrs. Hersee Moody Carson, of Los Angeles, has been at the bedside of Dr. Ferguson, who is quite ill at the hospital.

The Iris Club met Thursday afternoon at 5 o'clock, (D. S. T.) at the home of Mrs. J. K. Aven. Details of meeting next week.

## Seen, Heard and Told By The Editor

If it is as hot in Louisiana as it is here, we certainly do "feel" for our soldier boys on maneuvers.

From the number of transfers of officers and men, the old "home" company will soon lose its identity in the army.

There is some balm in Gilead: the soldiers will receive \$10.00 more per month after serving 12 months.

John Rundle, the best school superintendent in Mississippi did not have to be dogged or dunned but came in like a man and renewed.

Red Briscoe laughed at me when I stated in print that the proposal to build a municipal light plant would be buried decently with soft music and flowers; but I KNOW what turning something over to a committee means. I have been on too many committees to know that they are merely a burying detail.

Everyone says that the boll weevils have eaten ALL the cotton, but watch them buying sacks pretty soon, especially for the half hands. A renter (who buys his own sack) will make a sack last three or four years, but a half hand needs new sacks every year. I always believed they made undershirts and drawers from the old sacks.

Brother Mullin at Holcomb is advertising some corn. It looks like the gosh makers would grab it up pronto.

Get that dog vaccinated.

Be sure to hear Ross Collins' Jug band, singers and dancers Friday afternoon; also hear Ross who will make a speech.

dere mis penny lope, did yu no thet my robby son is sposed 2 cum to misint fridy.

We certainly do feel sorrowful for our old war buddy Pete Embury, who has been bereft of his devoted wife.

Bobby Jones, of Keiser, Ark., was a visitor in Grenada Tuesday of this week.

**New crop Honey, Gallons, 1/2 Gallon, Quarts and Pints. FRENCH MARKET**

I have about lost faith in the political acumen of Col. Henry Kahn, of Duck Hill. Since I have known him he has been 100 percent wrong in his predictions. Stephens was going to eat Bilbo up alive; Conner was going to snow Harrison under an avalanche of votes; Johnson was going to give the KO to Hugh White; Conner was going to beat Johnson. And now, Conner has the easiest time in life. Col. Kahn never misses a fed light.

Tom Meek lost a lot of money on Monday night after the board meeting by being in California.

Well, anyway, Red Briscoe carried the power trust ball further than anyone else ever did.

Well, we have escaped being cussed out two Fridays in succession.

School will start in September. Most parents can stand it.

There are a lot of pretty women and gals in Grenada.

Charlie Campbell, one of our loyal friends, of Duck Hill, paid in a watermelon and a dollar and got marked up another year.

Talbert Turner certainly has two fine looking grand boys.

Wonder how Mr. Jim Weeks is getting on.

Our main reliance for odd jobs Money Johnson, colored, is going to Washington Friday to see his sister.

Dear Turner Bailey: have you a one-third horsepower motor for me to use in operating a big fan? Call me over the phone if you are scared to come up on Beale Street.

One of our Texas subscribers, Collin Campbell, is figuring on visiting Brother Charlie in September if Charlie has enough to eat, which is a sure bet.

It must be grand to be rich like Jackson and Gore and gallivant all over the West during the dullest part of the year.

McKell restrained himself with true Christian fortitude when the news reached him that the municipal plant had been placed in the "cooling room" for an indefinite stay.

After September 1st, Grenada goes back on Standard Time if the people obey the City Council. The banks may have to remain on this new time as their hours are governed by the State Bank Comptroller.

Did we mention that Smiling Rob Carpenter, nabob of Elliott, recently made us \$1.50 richer.

Haven't seen Mr. Jim Shaw in a moon's age. Wherever he is, I will guarantee he is busy doing something.

## Paul McClure Died Saturday

Mr. Paul McClure, native of Coffeeville, died shortly after being brought to Grenada Hospital Saturday, Aug. 9, 1941.

He has been in ill health for several years and his death was not unexpected. His wife was the former Miss Sadie Criss, daughter of Mr. and Mrs. Will Criss of Beat Three.

Burial was had near Coffeeville Monday morning. He is survived by his wife and two daughters.

Further details are unavailable.

## Chemist At Grenada Farms

Mr. R. J. Remaley, research chemist of the Kraft Cheese Corporation, of Chicago, has been at Grenada Farms, of which Mr. Frank Kraft is manager and owner, for the past week engaged in analyzing the soils, establishing formulas for the culture necessary in the dairying industry, and, generally, giving his expert knowledge to Mr. Kraft. Apparently, Grenada Farms is fixing to go to town.

## Miss Moss To Washington

Miss Nadine Moss, daughter of Mr. and Mrs. Joe Moss, of Grenada, left last week for Washington where she accepted a Civil Service position in the Export Commerce division of the War Department.

## Nick's Improvement

Nick's Railroad Lunch Counter - a hoary institution of Grenada - is being extensively improved by building a kitchen and adding booths for use of patrons. Modern fixtures are being added.

Thus Grenada Grows.

### RICE YORK RECEIVES NOTICE

Rice York, better known as "Bubba" York, second son and Mr. and Mrs. Frank York, has been notified to report to Annapolis for final physical examination on next Monday.

His many friends hope that he will pass the physical examination, and that he will continue in the Naval Academy to make the high marks that he has made in other schools.

### A PLEDGE BY COLLEGE WOMEN

The young women of Stephens College in Columbia, Missouri, voluntarily took the following pledge with reference to loyalty to their country:

THIS WILL DO:

1. Fight unwaveringly for the principles of democracy in my town, my state and my Nation.
2. Fight for the education of women in democratic ideals and democratic realities so that all women working from the American home can help safeguard the spirit of democracy in a world in which democracy is under increasing attack.
3. Fight for the stimulation of increased spiritual faith and spiritual vision without which no democracy can long endure.
4. Fight against all undemocratic forces in American life, whether such forces be foreign-inspired or home-born in the hour of the Nation's stress.
5. Fight those philosophies of government which would reduce men to soulless automatons and women to kitchen slaves and mere incubators for the state.
6. Fight, if war should come, with the same courage and sacrifice with which our American men will fight, so that our lines on the home front, as well as on the battle front, shall prove impregnable.
7. Fight, always and forever, for American justice, tolerance and freedom so that they may stand unhampered and unhindered as the hope and glory of the world.

## How to become A SKILLED DRIVER

By RAY W. SHERMAN  
Courtesy of the FORD GOOD DRIVERS LEAGUE

### OPERATING THE CLUTCH

Learning to operate the clutch without jerking or jumping the car is not easy. But remember, only skilled drivers are smooth drivers. They understand the clutch and use it correctly.

Try this procedure in your driveway or on an untraveled street: Drive the car at crawl speed. In low gear and with the engine turning over slowly, you can control the speed of the moving car with your left foot on the clutch pedal. Find the spot in clutch movement where the car crawls at one mile an hour. Clutch movement at this stage will be very slight. The important thing is learning to locate the spot where the clutch goes out. This point controls movement of the car. Practice the maneuver described above. It will help you to master the clutch.

## Boys Needed For Defense Training

According to information received from E. R. Smith, Area Director of NYA, Greenwood, Miss., training is available for boys between seventeen and twenty-five who are unmarried, out of school and physically able to do work in the fields of welding, sheet metal working and machine shop work.

Arrangements are being made for transportation of boys from Grenada county who are interested in getting this training. While they are receiving this training they will receive \$22.00 per month, and the transportation to Greenwood will be free. Any boy who would like to make application for this work may do so at the Sheriff's office with Miss Martha Jean Webb, NYA Registration Clerk for Grenada County.

Any boys who were ineligible for military training will qualify for this work.

## Dogs Must Be Vaccinated

The state law requires that all dogs be vaccinated.

Dr. S. W. Truss, of Water Valley, will be in Grenada County Monday, Tuesday and Wednesday of next week in accordance with a schedule published elsewhere, for the purpose of vaccinating dogs.

The time mentioned is daylight saving time, which of course is one hour earlier than standard time.

## NEW McCORMICK-DEERING No. 9 Mower with Zerol-Bevel Gears

● International Harvester introduces another great leader in the horse-drawn mower field—the quiet-running No. 9! Its gears are all-steel, with bevel gears of Zerol type for smoother performance and longer life. No excessive neckweight in this mower—gears are behind the axle. You'll want to see it now. We have one on display.

## YOUR DOCTOR'S Other Hand

It is your Doctor's province to write a prescription. Our mission is to RIGHT it.

We mean by this that it is our responsibility to see that your prescription is correctly compounded. We serve as your doctor's "Other Hand", carrying on where he leaves off. We sense the seriousness of our art, and do not take our responsibilities lightly. As an extension of your own physician's personal service we assure you, above all else, that the prescription he has given you will be compounded EXACTLY AS HE DIRECTS. We pledge further that a competent registered pharmacist will use only fresh, potent drugs of highest quality and that the resulting product will be fairly priced. May we have the privilege of having you bring your next prescription in and seeing us compound it. We will be most happy to have you inspect our prescription department.

## My Column

Cpl. Whyte Whitaker Jr.

Editor's Note: (Our readers will be interested to read the names of soldiers forming the "Tank Destroying Battalion" as taken from the HQ: 1st Bn, 114th F. A. Their address will remain the same for some time. Due notice given in this column of a change.)

So long, 114th F. A. we are on our way for detached service. Thirty-eight (38) men of Headquarters Battery are serving their time in the 31st (Dixie) Division's newest offspring, named "The Tank Destroying Battalion." I can't mean to imply that it's a job for softies, for anyone will tell you it's "rough and ready" to go—in fact it's got to be the toughest outfit in the division. In case of war, casualties are due to run extremely high as the object of the battalion is to go out to meet the enemy and put their tanks out of commission before they have a chance to strike. Unlike other tank units which are entirely defensive, this unit is entirely an offensive organization. The army is experimenting with this new type of offensive with the idea of making it a permanent part of the fighting force.

The following men were transferred to this new Battalion:

Sergeants Roy Lee Grantham, Ralph J. Davis, Elmer C. Shaw, Hector D. Lane, Jr., William J. Roane; Corporals John E. Payne, Jr., Claude M. Hudson, Arthur E. Kindred, J. M. Martin, Samuel M. Province, and White Whitaker, Jr.; Privates Gayle W. Alderson, Fred D. Cofer, Leonard G. Coker, H. P. Collins, Frank R. Fleming, Henry B. Glazier, Ernest E. Greece, J. D. Jones, G. L. Farris, Charles E. Pope, James H. Mars, James E. Mooley, Fred B. Patton, William W. Curtis, Edward C. Ricks, W. W. Gant, D. D. Bloodworth, S. D. Greenlee, M. D. Martindale, Jr., David Collins, Chas. P. Spurgeon, Lewis E. Coleman, Earl C. Myard, Geo. Townsend, Jesse L. Walton, and James M. Mortner.

The commanding officer of our battery is Captain William B. Lee, formerly with the 17th Field Artillery, whose home is Dothan, Ala. Our Lts. are First Lt. Birney Innes, of Columbus, Miss., and Lt. Melton, of Meridian, Miss.

## NEW REPORTER FOR HQ. CO.

Sergeant Frank Ranklin Thomas Tims, Jr., needs no introduction to the readers in Grenada, as he is one of the hometown boys. He has accepted my invitation to get the news of the battery we have left behind and send it in to the GCW. Frank has taken on a job for which he will get lots of credit as well as one which details a little work.

Preliminaries for the Nation's greatest war games in September, 1941, began this Monday morning with a camp problem involving 55,000 troops, while larger units completed concentration of forces for a full week of Alexander's eventually involving 250,000 men.

August 17 and 18 are the dates on schedule for the 250,000 troops to divide into the "Reds" and the "Blues" for sham battle against each other. About the middle of September, the second and third armies of which 500,000 troops from 19 of the Nation's 33 divisions, will be in action. Epochal contest between the second and third army will determine the strength and efficiency of a very large part of Uncle Sam's fighting force.

## SNAKES, SNAKES

One of the first things we did after reaching our bivouac area in Louisiana was to go snake hunting. This section is infested with reptiles. The snakes of the Pelican state have an annoying habit of crawling in our pants for a nice dry place to sleep. Most of them are non-poisonous, yet their scaly bodies are undesirable bed fellows.

## POISON IVY

Close to half the men in the battery are infested with poison ivy (imagined: having poison ivy this hot weather). Several had to go to the hospital, while a number are taking shots for it, and those with slight breaking out are using first aid treatments.

Alexandria accommodated the largest crowd of soldiers in its history this pay day, and they were all recreation bound. They jammed the restaurants for thick steaks and cool beer. They crowded into barber shops and flirted with the candy counter girls—the five and ten cent store girls and as usual pitched their money to the four winds—money they sweated it off for. Oh well—they say it always been that way.

John Ed Carpenter wonders if his "kicks are dead or alive as he has not heard from them lately.

Smash that "D—" record, "I'll be back in a year, little darling." Let's have one "I'll be back in 18 months, little darling, I hope.

We are happy to welcome back to the Battery, P. F. C. Lynn Williams, who has just completed a three months

## 1941 Football Training To Begin August 18th

On the afternoon of Monday, August 18, the Grenada High School Football Team will begin practice for the 1941 football season. Only six letter men are left over from the twenty-two who received letters last season, and of this number only four were regular players. With so few experienced players and a very tough schedule this pre-school practice will be very important in the development of a representative team. Equipment will be checked out at 2:30 p. m. daylight saving time. The following schedule has been arranged:

Sept. 19, D'Arant, here  
Sept. 26, Batesville, here  
Oct. 3, Louisville, here  
Oct. 10, Indianola, there  
Oct. 17, Water Valley, there  
Oct. 24, Winona, here  
Oct. 31, Sardis, here  
Nov. 7, Kosciusko, here  
Nov. 14, Eudora, there  
Nov. 21, Charleston, there

## With The FSA

Announcement of the appointment of ten citizens of Grenada County to committees of the Farm Security Administration to assist that agency in the operation of the rehabilitation and tenant purchase programs of the U. S. Department of Agriculture, was made today by C. D. Vandover, state Farm Security Administration Director. Webster Goodwin, of Hardy, Miss., Hubert Clark, Big Creek, Miss., and F. F. Gillon, of Grenada, Rt. 4, have been appointed Rural Rehabilitation Committee. The purpose of this committee is to advise and assist the county FSA supervisor in carrying out the FSA rehabilitation program for low income farm families in this county.

Members of the Farm Debt Adjustment and Tenure Improvement committee are John Keeton, Grenada, A. G. Williams, Holcomb, and E. C. Hayward, Grenada, R. F. D. The purpose of this committee is to help debt-burdened farmers reach voluntary agreements with their creditors. The services of this committee are available to all Grenada county farmers, whether or not they are FSA borrowers.

The members of the Tenant Purchase Committee are Hubert Clark, Big Creek, Y. G. Bart, of Grenada, Rt. 5, and F. E. Gillon, of Grenada, Rt. 4. The Tenant Purchase Committee will assist in the selection of worthy tenants and sharecroppers for tenant purchase loans. The committee also will aid in the selection of farms.

A total of nine tenant purchase loans have been made so far in this county during 1941 and it is expected that 10 farm families will be given the opportunity to purchase farms this year under the provisions of the Rankin-Jones Tenant Purchase Act.

Members of the three committees and three members at large will compose the county FSA advisory council which will act in an advisory capacity. The council members at large are J. L. Cooley, A. L. Taylor and Will Hayward, all of Grenada.

radio course at Fort Sill, Okla. We are glad to have you back, Lynn, even though you will put some of these radio men computers, etc. in the shade.

## PROMOTION

First Sgt. Upton Costlow traded his Sergeant Chevrons for a pair of gold bars last Wednesday and now is assistant executive with Btry A, Congratulatory Lieutenant "Jap."

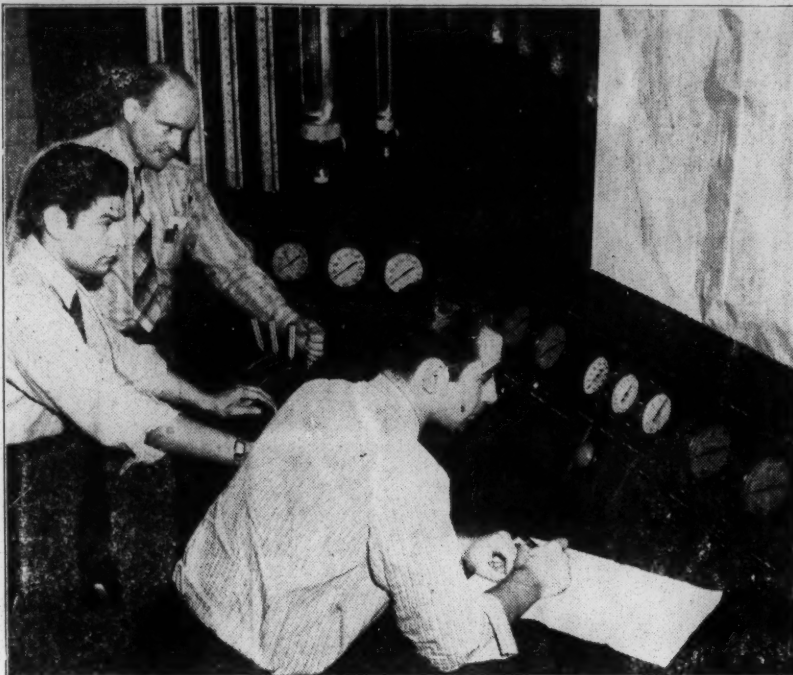

Quite a few more promotions were made last week, namely: Staff Sgt. J. S. Jackson to First Sgt., Sgt. J. R. Hooker to Staff Sgt., Sgt. Chester P. Irby to Tech. Sgt., Sgt. Wm. P. Bell to Sgt., Pvt. Alton B. Reid to Cpl. The following privates were made Privates First Class: Cornelius H. Black, Jas. W. Martin, Jack Gant, James E. Fortner, Gene P. McPhail, Russell Abernathy, Anthony G. Shapley, Chas. LeBlanc, John Ed Carpenter, Henry L. Sewell, Posey Locke, Ray Trussell, George L. Townsend, Dennie W. Spence, Raymond E. Corder.

(By Frank Tims)

Having been honored by Whyte, Jr., with a request to carry on for the GCW readers, in ye old Jidqrs, Btry, the multitudes are now gazing upon a novice of the first magnitudes nevertheless, knowing all great men start at the bottom and work up to greatness—here goes.

Just to enlighten a few who don't know there is no such place as Ragley, La., is a fictitious name used only in the sorting of mail for the military personnel of this area. Ragley becomes such solely for the purpose of keeping our mail separated from civilian mail in New Orleans and surrounding towns. With the exception of mud, mosquitoes, poison ivy and snakes, it's nice to be so much nearer home!

## Students at the Rouge Prepare for Defense Jobs

DEARBORN, Mich.—When the average person visualizes a big industrial plant, he (or she) usually views it in terms of miraculous operations done by mechanical marvels. Few think of a factory as a "school house," yet the vast Ford Rouge plant has an industrial school system comparable in size to a large university.

With the opening this year of two important new units, the Ford school system now enrolls nearly 10,000 students. Latest additions are an aircraft apprentice school and a U. S. Navy Service school to train Uncle Sam's blue-jackets.

Henry Ford started a school system in his automobile factories 25 years ago when he foresaw a future need for skilled manpower in industry. This foresight now is expected to go a long way toward solving his need for skilled hands in filling more than \$700,000,000 in national defense orders.

Ford training facilities have grown in the past year to become the largest of their kind in the world. Space within the 1,200-acre Rouge plant devoted exclusively to classrooms, laboratories and school shops has been increased from three to five acres. One hundred instructors have been added.

In the new aircraft apprentice school, youths are being trained in machine shop, assembly, disassembly, inspection and testing of the Pratt & Whitney airplane engine which Ford is building for the U. S. Army. The school is located in the front portion of the new \$27,000,000 airplane engine plant on the Rouge grounds.

Another unique Ford school project linked closely to national defense is the Navy Service School. Costing around \$1,000,000, this school was provided and equipped through the Ford Motor Company, at no expense to the government. The first sections were erected in the record time of 40 days.

Two students in the Ford aircraft apprentice school (top photo) learn to operate a test cell panel used in checking newly built airplane engines. The instructor, with hand on the engine controls, explains the test instrument readings. In the photo above, carefree recruit sailors attending the Ford Navy Service School march across the Rouge plant grounds to their cantonment after the day's classes end.

## With The County Agent

Mr. Charlie McNeil, manager of the State Farm Cooperative, addressed the meeting of our County Cooperative and Cold Storage. He is the father of our 1941 "85 percent Parity" Cotton Loan. He and the Farm Bureau worked for a 100 percent loan but had to compromise for the 85 percent loan.

The Delta County Agents inspected the crop and fertilizer experiments at the Delta Experiment Station this week. Many experiments prove the value of fertilizer and winter cover crops for cotton, corn, and oat production. The most outstanding experiment observed was that soy beans planted in corn produces a good of beans and approximately twice as much corn. Another experiment showed that cotton grown following vetch produced as much lint cotton as other plots produced with commercial fertilizer.

Visited the farm of Mrs. B. C. Duncan in Bent Five. She has learned to grow cattle and hogs as a "money crop." She reports that they bring her more money than her cotton crop. Mrs. Duncan planted hairy vetch last fall and her crop is so much better this year that both she and her colored tenants want to plant more vetch this fall.

A visit was made to one farm to vaccinate some hogs. One hog was sick and the owner decided the hog had "Miss-Meat" colic rather than cholera.

More of our farmers are growing sorghum silage this year than ever. Even Mr. Lon Thomas has planted ten acres of silage to feed his sixty head of beef cattle on this winter. He has already started digging his trench silo.

All farmers are urged to attend the pasture, hay-mowing, and silage demonstration to be held at Glenwild on Friday, August 22. Farmers from 10 adjoining counties are expected to attend.

Another membership meeting of our County Cooperative will be held next Tuesday morning at 9 o'clock (old time) to elect officers for another year and to make plans to make our cooperative better serve the farmers of our county.

## MT. NEBO NEWS

It was not intentional that we failed to mention the meeting carried on last week at the Methodist Church here by the able pastor, Dr. Benson. His sermons were an inspiration to all who heard him and we hope much good accomplished.

Last Tuesday morning one of our master farmers, T. S. Schmitz, was all with his team of fine young mules and new mower, to cut hay. Everything went well until the Maypops under the hay began to pop. The mules suddenly left, ruining the mower and many ripe Maypops. He says never again does he want any pops on his land.

Rev. Slier, pastor of Shiloh Baptist church Sunday night started the annual series of revival meetings. Large crowds are attending.

We forgot to mention that last chunk moving rain here loosened the gauge on Coles Creek from its mooring. Last seen of it by a deer hunter on Pass Island. Said gauge was heading for the river, nominal reward for its return and no questions asked nor answered.

Had a long talk with Douglas Anderson today, says he is getting better all the time, but is heart broken because his GCW failed to come last week. He is fixing to organize a club here for one of the Senatorial candidates. He failed to say for which one, but take it from us, as we have said in three hot elections here, as Nebo goes, so goes the state.

Mesdames Nannie Burke and Laura Clarke had as their guests last week their sister-in-law, Mrs. Dr. Luther Hill, of Blue Mountain, and niece, Miss Gladys Hill, teaching at Biloxi, their nephew, Elton H. and wife, teaching at Geville, Prentiss county, also another nephew, Mark Hill, medical student at Ole Miss. The pot boiled strong, several chickens cooked, stacks of egg custard, gobs of flap jacks smeared with butter and persimmon bloom honey, and even cheese and loaf bread well soaked in mustard.

The road No. 8 through is not yet paved. A mighty smart and great man made a speech at Calhoun City during a certain governor's race and said No. 8 will be paved, but why bring it up for it was a heart breaker for old Nebo.

## How to become A SKILLED DRIVER

By RAY W. SHERMAN  
Courtesy of the  
FORD GOOD DRIVERS LEAGUE

## HOLDING THE WHEEL

Your left hand should be above the center and your right hand just below the center, or in other words, like the position of the hands on a clock at 10:20. This position gives you the best control—it enables you to put your arms, shoulders and all your strength into steering if you have to.

A hand at the bottom of the wheel has no power. Try it and see! With today's good roads, many drivers forget the importance of gripping the wheel correctly and let their hands sort of lie in their laps while the cars roll. But it's a dangerous habit. A tire can blow. In that case you've got to fight the wheel, whereas if you were in the right position, all you'd need to do would be to tighten your grip and ride it out.

## Local and Social Activities

Mrs. W. W. Whitaker, Society Editor, Phones 83 and 747

### BRIDGE LUNCHEON FOR VISITORS

The attractive Misses Carolyn and Norma Jean Hudson, of New Albany, nieces of Mrs. John Rundle, were graciously entertained Friday morning from ten to one, with a bridge luncheon, given by Misses Carolyn and Dorothy Whitaker at their home on South Street.

The long reception hall, was decorated with colorful summer flowers. In white containers and the living room decorations featured pastel hued pink and blue astors and lacy fronds of soft pink crepe myrtle. Four tables were arranged in the living room for the interesting games. As the guests arrived iced Coca-Colas were served. The traveling prize, created quite a bit of excitement and was finally captured by Miss Helen Horton. It was miniature leather shoes fitted with roller skates to form a costume accessory pin. Misses Norma Jean and Carolyn Hudson the honor guests received Mexican pottery and the high score prize, a pair of white pottery slippers was won by Miss Ann Duncan.

At noon a lovely plate containing tomato stuffed with tuna on lettuce, cheese sandwiches, two capotes, round nut bread sandwiches and a tall corn part of pineapple sherbet was served.

Enjoying this social affair were the following young ladies, Misses Norma Jean and Carolyn Hudson, of New Albany, Miss Jane Quigley, of Memphis, guest of Mrs. Sam Mims, and Misses Louise Arent, Ann Duncan, Whitford Saunders, Lillian York, Mary Elizabeth Horton, Marjory Chapman, Sue Vandiver, Helen Horton, Dick Jones, Louise Sanderson, Elizabeth Oakley and Mary Lou Cullen.

Two refreshment guests came at noon and were Misses May Bailey and Verna Leggett. Unable to attend were Misses Susan Proby, Sue Rowell, Dorothy Talbert and Gene Margers.

### W. M. U. TO MEET

The Baptist W. M. U. will meet on Monday, August 18, for their regular Bible Study, taught by Mrs. John Rundle. This auxiliary is meeting at the church every other Monday during August.

News, via postcard, from the W. E. Jacksons, states that they were in Yellowstone Park on August 8 and the Jay Gores were with them.

Mr. and Mrs. Bill Brown and little son, who have resided in Charleston for the past year, have returned to Grenada to reside. Mr. Brown is with the M. P. & L. force.

### CELEBRATES FIRST BIRTHDAY

ANN COLLINS  
One Year Old

On July 26, Ann Collins celebrated her first birthday and was the very center of attraction at the home of Mrs. Eli Whitaker, who gave her a real party on that occasion.

Invited to enjoy this special treat were little Mary Leigh Garner and Betty Burkley and "Sonny" Whitaker. The hostess decorated the birthday cake with one pink candle and at refreshment time the cake with jello and cream was served. Colorful balloons were given as favors, and the grown ups attending enjoyed the party as much as the youngsters.

The above picture is that of sweet little one year old, Ann Collins, daughter of Mr. and Mrs. Taylor Collins, of Marietta, Ark., and granddaughter of Mr. and Mrs. Will Ed Boushe. She with her mother has visited in Grenada for past several weeks and at present is at Choctaw State park with her mother and Mrs. Eli Whitaker and son, Eli, Jr. Mrs. Lloyd Harrison and Mr. Hiram West.

Mr. and Mrs. Rice Lawrence, of Hatfield, were here the past week-end.

Mrs. H. B. Spain spent the day to Jackson last Thursday with her friend Mrs. Pope.

Mrs. Roger Pleasants and Dudley Crawford are chaperoning a group of youngsters at Choctaw State park this week, including Roger Pleasants, Hal Pleasants, Bobby Alexander Roane Townes, and Rhoe Rhett.

Mr. and Mrs. John Pressgrove and little daughter, Joan, left Wednesday for a vacation trip. They will go to Atlanta, Ga., Washington, D. C., and Buffalo, N. Y., visiting in the home of Mrs. Pressgrove's brother in the last named city.

Frank York, Jr., received his pilot's license at Miss State this past week and they plan to visit to Grenada. His brother, Rice, better known as "Bubber", went to Miss State and "flew" to Grenada with him.

Mr. and Mrs. R. L. Vandiver are happy to have their nephew, Sidney Pate, of New Orleans, for a visit this week.

Mrs. Sel Roane, Harry Adams, S. J. Reeves and Miss Jane Young spent the day with their cousin, Mrs. J. T. McCain in Greenwood.

Mrs. R. E. Eastwood and little son are visiting their mother and grandmother, Mrs. Eldon, at Columbia.

Mrs. Mary Upshaw Jones and niece, Nancy Upshaw, of Oklahoma City, arrived on No. 3 Tuesday for a visit in the home of their aunt, Mrs. R. B. Townes, Sr.

LT. Jack Martin spent Saturday and Sunday here with his mother, Mrs. Ernestine Martin. Upon his return trip to camp he was accompanied by his friends, Donald Ross and Raphael Semmes, Jr., who will go with him to Baton Rouge, where his command is located. Frank Gerard, Jr., went to New Orleans with them. Donald and Raphael will then bring the Martin car home.

Mrs. C. H. Calhoun visited in Memphis the past week-end.

Miss Kathryn Jones, of Jackson visited her parents, Mr. and Mrs. C. M. Jones, the past week-end.

Dr. and Mrs. J. K. Arent visited relatives, including Mrs. Arent's mother, Mrs. Thurman, in New Orleans last week.

Attractive little Pauline Fisher, daughter of Mr. and Mrs. J. P. Fisher, of Jonesboro, was here last week visiting her aunts, Mrs. John King and Miss Juliette Doak.

### ENJOYS SUMMER TRIP

Mrs. E. B. Provine reached home last Thursday morning after being away practically all of the summer. She visited her son and family in Oklahoma first, then went to New York City, where a daughter resides and on to Florida where she visited her sister, Mrs. J. H. Pace, who resides in Jacksonville, and to see her son, Sam, at Camp Blanding.

She visited her brother at Mobile, and relatives at Lucedale. Other cities and places of interest visited by Mrs. Provine included the cities of Buffalo, N. Y., where she saw Niagara Falls; Sidney, N. Y., a trip to Maryland, Akron and Stuebenville, Ohio.

Mrs. Provine traveled through the Blue Ridge Mountains when enroute to Florida.

Mr. and Mrs. Waddie Turner and their two interesting little boys, Billy and Johnnie, are visiting their parents and grandparents, Mr. and Mrs. Talbert Turner. They live in Washington, D. C.

Mr. and Mrs. Frank Gerard and their sons, Messrs. Frank, Jr. and Gus, were accompanied by Mrs. Whyte Whitaker and daughter, Carolyn, when they attended the final M.O.A.T. performance of the season in Memphis when the delightful musical comedy, "The Pink Lady" was presented.

Gus Gerard will attend the Sigma Chi house party at Choctaw State park this week-end.

District Attorney Coleman and wife and fine little son were in Grenada Monday.

### MRS. R. W. SHARP HOSTESS

On Tuesday morning, Mrs. R. W. Sharp entertained at bridge when bridge club members and two non-member guests assembled at 10 o'clock D. S. T.

The attractiveness of this handsome home was further enhanced by placing choice flowers at points of vantage. Enjoying Mrs. Sharp's hospitality were the following club members: Mesdames F. T. Gerard, L. J. Doak, Andrew Carothers, C. H. Calhoun, Ernestine Martin, and H. W. Baker.

Non-members present were Miss Lida Coffman and Mrs. Jesse Ware. Mrs. Margaret Noel was luncheon guest. At noon a beautiful plate containing sherbet, chicken salad, two cheese sandwiches and wafers was served.

Rev. and Mrs. Pat Easterling, of Excelsior Springs, Mo., arrived Monday night in company with their brother and sister, Mr. and Mrs. Thomas Grant, who have been their guests. They will be the guests of their parents, Mr. and Mrs. Geo. Grant, and Mrs. Etta Dudley while here.

Mr. and Mrs. L. E. Willbourn and family of Memphis, spent Sunday here with their sister and aunt, Mrs. Alice McLeod.

### MRS. TOMMIE ROSE, JR. HOSTESS

Mrs. Tommie Rose, Jr., has been hostess to a group of friends from Coma this week. While here Mrs. Rose entertained with a delightful watermelon cutting on Tuesday afternoon and on Tuesday evening they enjoyed a picture show party and later dancing at Magnolia Club. Her guests were Misses Pearl Embree, Prudence Davis, Jane Patterson and Katherine Le-waller.

### MRS. C. V. MCKELL HOSTESS

The charming home of Mrs. C. V. McKell on Snider Street was the scene of a bridge club meeting Tuesday morning. Lovely garden flowers added a summer time atmosphere to the well-

arranged living room where two tables were arranged. Three non-member guests enjoyed Mrs. McKell's hospitality also, and were Mesdames James Scott, Cas E. Heath and J. L. Cooley, Jr.

At intermission a refreshment plate, containing sandwiches and cookies was served with iced Coca-Cola. Mrs. James Scott received two beautiful handkerchiefs as high score prize.

Mrs. George Murray and nephew, Lynn Rose will leave early Saturday for a delightful two weeks vacation trip. At Winona they will be joined by their relatives, Mr. and Mrs. "Red" Austin, who will go with them to Mexico.

## THE PROGRESS OF

**Self Regulation IN MISSISSIPPI**

Public confidence in the Brewers and Mississippi Beer Distributors Committee's program was evident as the Committee ended its second year of activities under the sponsorship of the United Brewers Industrial Foundation. When the Committee recently held its second annual meeting in Jackson, W. W. Pierce, the State Director, made a full report of the progress of the Committee during the past year. A summary of the State Director's report is as follows:

We are ever mindful of our continuing responsibility to the public, through protracted support of state and local officials, and the unbiased public, by encouraging temperance, peace and order, and by lending our full support to public officers to insure

observance of the law in the sale and consumption of beer.

As a means of projecting a legitimate solution to our objectives, we list the following activities of the state Committee:

1. 2,285 retail outlet investigations.
2. 349 warnings to retail outlets.
3. 93 pledges to correct objectionable practices secured.
4. Decided improvement observed at 238 places where warnings were issued.
5. Held 11 meetings with retail dealers to urge strict law observances in the sale of beer, and full cooperation with law enforcement officials.
6. 23 petitions for cancellation of Retail Beer Permits filed.
7. 16 Retail Beer Permits cancelled on petitions of the Committee.
8. 26 shut-off orders executed.

Space will not permit listing of numbers of other activities of equal importance. However, through our cooperative efforts with efficient law enforcement officials, and the sober minded citizens, we have made great progress toward the solution of many problems inimical to the public welfare whereby beer today is looked upon in terms of moderation and as the ideal beverage of true temperance.

In conclusion, we express our appreciation for the wholehearted manner in which the public officials have received our assistance. Likewise, we convey our thanks to the members of the press, and the public generally, for their unbiased commendation of our program.

Sincerely,

*W. W. Pierce*  
State Director.

## Seen, Heard and Told By The Editor

Radio Doxye Wells, who used to be Radio Billo Wells, has become a new subscriber and we welcome him. Wells and his sound truck are now engaged in helping elect Wall Doxye which many believe is a worthy cause.

Do not forget your gin tickets. Do not wait until cotton begins coming to the gin to procure them.

This office was honored Saturday morning with a call from Hon. Wall Doxye, candidate for the U. S. Senate. He is a fine looking man and has earned a fine reputation for getting things done.

You folks were good enough to keep Horn and Greenfield busy Friday and Saturday with job printing. Do it again next week and keep them out of meanness. Both of them are prone to devilment when idle.

Our old Graysport friend, Henry Marter was an aggrieved caller at the Den Saturday. Henry never has completely recovered from his illness, but manages to get around and about, tho somewhat slower than usual.

The Presbyterian lot, under the shade trees alongside Green Street, is a favorite place for the negro watermelon eaters. Birds are almost belly deep at times.

"Without vision, the people perish" says the Bible. Mr. Allen certainly has vision galore and, if supported, will get things done for this county.

Mrs. Oliver, who wants Dr. Frank Hays to have good reading matter while away in Memphis, saw to it that his subscription was extended another year.

It has been as hot as two and one-half hells the past week, but there is little we can do about it.

Thank goodness, we are not worrying with any politicians this hot weather. When the thermometer gets down to 95, or 96, I will have to put on my long "toms".

Fred Daise, our charter member Torrance must have got his parity check, for he paid up recently.

We have printed quite a few orders of personal stationery for college students recently: 100 sheets of letter size paper and 100 envelopes for \$2.00-2.00 of each, \$3.00.

We heard via radio the other night that nearly all of the civilian doctors had been sent from Germany to points near the Russian-German front, and that civilians in Germany were getting a little suspicious, in spite of the propaganda, that all was not well in that area.

In this hot weather, Andrew Carothers always looks immaculate. How does he do it?

Tom Meek lost a lot of money by being absent from Grenada Friday night.

Revell started his diet Saturday night by eating a big steak and a pack of French fried potatoes.

Me and my electric fan are like Damon and Pythias, or like David and Jonathan, or like Sell and Arab Roane. See one, see the other.

Katie served as the Cinderella for several weeks and stayed in the kitchen; now it is Selma's time.

"Miss" Little Prosser, another prompt renewer, gets her name on the honor roll this week.

Allen and I had the pleasure of visiting with Editor George McLean in Tupelo Thursday morning. George is a splendid man and a fine editor. All his crew, according to themselves, read the GCW, but are disappointed that I have quit lambasting the politicians. To hell with the politicians, is now my creed.

Do not wait until it's time to gin, to get your gin tickets. Yes, we can print them.

### NOTICE TO CREDITORS

The undersigned, having been appointed as executor of the estate of Mrs. Maria Louise Doty, deceased, by the Chancery Court of Grenada County, Mississippi, on the 5th day of August, 1941, hereby gives notice to all persons having claims against said estate to have same probated and registered by the Clerk of said Court within six months and that a failure to probate and register said claims for six months will bar same.

Witness my signature this 5th day of August, 1941.

### NOTICE OF SUBSTITUTE TRUSTEE'S SALE

Default having been made, and now existing, for a period of more than ninety days, in the payment of a part of the indebtedness secured by the deed of trust in favor of Home Owners' Loan Corporation, executed on January 30, 1939, by Thomas Upton Hodge and wife, Mrs. Edna DeLaney Hodge to J. Thomas Dunn, Trustee, and recorded in Book 74, page 359 of the records of Mortgages and Deeds of Trust on Land in the office of the Clerk of the Chancery Court of Grenada County, Mississippi, at Grenada, Mississippi, and the undersigned having been duly substituted as trustee in said deed of trust on July 12th, 1941, which substitution appears of record in Book 80, page 382 of the records of Mortgages and Deeds of Trust on Land in the office of the Clerk of the Chancery Court of Grenada County, Mississippi, at Grenada, Mississippi, and the entire indebtedness secured by said deed of trust having been declared due and payable by Home Owners' Loan

Corporation, the owner and holder thereof, and foreclosure of said deed of trust having been duly requested, I, Cowles Horton, as Substitute Trustee in said deed of trust, will on August 18, 1941, within legal hours, offer for sale and sell at public outcry, to the highest bidder for cash at the front door of the Courthouse of Grenada County, Mississippi, at Grenada, Mississippi, the following described real property situated in Grenada, County of Grenada, and State of Mississippi, to-wit:

Part of Lot One Hundred Ninety Seven (197) East Ward, City of Grenada, Grenada County, Mississippi, described as beginning at the Southwest corner of lot One Hundred Ninety Seven (197) and running thence East parallel with Third Street Sixty (60) feet; thence North One Hundred Five

(105) feet; thence West Sixty (60) feet; thence South parallel with Layco Street One Hundred Five (105) feet to point of beginning.

Witness my signature this 21st day of July, 1941.

COWLES HORTON,  
Substituted Trustee.  
7-24, 31, 7-7, 14-333w.

RADIO RECIPE

No. U-67  
Vanilla Ice Cream with  
Chocolate Sauce

Broadcast by Mary Lee Taylor  
August 7, 1941

1 1/2 cups Fat Milk 1/2 cup cold water  
1 package vanilla ice cream powder

Chill 1 cup milk until cold. Meanwhile, put ice cream powder in bowl. Stir in milk, water and vanilla. Chill thoroughly. Whip chilled milk with rotary egg beater or blender at high speed, until stiff. Fold in vanilla and milk mixture. Freeze, without stirring, in mechanical refrigerator (or use ice cream maker, or in a mold lined in a dishpan of 3 parts crushed ice to 1 part ice cream mix. Freeze with Chocolate Sauce (See Recipe) served.

WHEN 1/2 CUP ice cream powder is used, you will need 1/2 cup.

### Chocolate Sauce

1 cup sugar 3 tablespoons white  
1/2 cup cocoa 1 cup hot milk  
1/2 cup water 1 cup vanilla  
Melt together sugar and cocoa. Stir in water. Add cocoa syrup, hot or cold, to melt a few drops from a soft ball when dropped into cold water. Remove from heat. Stir in milk and vanilla. Serve warm or cold on Vanilla Ice Cream. (See Above) plate only or other dessert. Serves 6.

For These Recipes You'll Need:

## Local and Social Activities

Mrs. W. W. Whitaker, Society Editor, Phones 83 and 747

### NO-A-E-F.

(MRS. W. W. W.)

The Queen of England spoke to the people of America Sunday afternoon and she asked that we join the English and Allies even closer in the war to save the democracies of the earth from subjection by Hitler. At the time of her Majesty's speech a leading newspaper in London bluntly stated that an American Expeditionary Force would be needed to win the war on the continent.

We are aiding England in every way except sending an A. E. F. and somehow we feel assured that an A. E. F. WILL NOT BE SENT! As all of those lands across the sea continue their age old scenes of unrest they selfishly beckon to us who have a peaceful home, to come to their home which is divided against itself, and to make ourselves a part of their controversies.

All Americans are descendants of people who had homes in Europe and who came to America to secure peaceful freedom, freedom from tyrannical dictators, economical barriers, and military despots. This true that some came for adventure, and found this country so ideal, they remained to make it their home, but let us answer this appeal for aid by asking the men who went to Europe in an A. E. F. to the first German war if they want their sons to go to Europe to fight by asking the men, the pitiful few who are still living, who were in charge of administering the 1917-19 Lend-Lease program, if the countries involved, supplied, and financed by America, are good about paying their debts.

Ask some of our present relations and congressmen if they know that the Johnson Act forbids credit to a Nation who is a defaulter.

To be sure, we are going to help England and her proud Empire, even Russia, fight Hitlerism, but let us with an A. E. F. The firm hold that Nazism has in Central and South America, the Japanese threat through Alaska and the interest caused by fifth columnist in our own country, coupled with our unpopularity, should keep us busy at home for years to come. We are heartily in agreement to keep our boys for longer army training, service if they are needed, needed by America for America.

In 1917 we ignored the words of Washington and returned, as knights of old, to fight the wrongs of Europe, forgetting that those wrongs are the hopeless heritage of that distracted land, forgetting that our hope of a new order must come from the knowledge that only here in our own plains, in the valleys, and on every hilltop can be fulfilled the aspirations which were bequeathed us by those who wrought this Nation.

Let not our reason be misused by words of leaders of other nations, who see first their own welfare.

### "U. S. O. NEWS"

Mrs. J. K. Arent, Grenada County Chairman of the U. S. O. Initial drive, and Drives yet to come, passed on to us a most interesting U. S. O. Bulletin, published at National Headquarters, New York City.

The U. S. O. goal of \$10,755,000 has been reached, BUT MORE MONEY IS TO BE RAISED. This announcement is based on the theory that the army navy and aviation divisions are ever increasing their enlistments and a bill has been passed holding the men for 18 added months service.

Lack of government built U. S. O. buildings in 89 camp centers, entails the added expense of operating in rented quarters. Faced as the administrators is with present inadequate facilities, the pressing need for more buildings must be faced soon and stressing the increased need for U. S. O. funds resulting from this rapid expanding military forces and the holding of many thousands of men in service, the campaign chairman emphasizes that the goal must be increased. As soon as the approximate amount of the increased needs is cleared, the amount of the NEW GOAL will be announced. This may be within the next two or three weeks.

Watch this paper for local announcements.

Francis Hill was in Memphis part of last week and while there attended the M.O.A.T.'s current play "The Pink Lady."

Mrs. John Williams and daughter, who is a member of Memphis' school faculty of Memphis, visited Mrs. Carrie Goodwin last week.

Mr. and Mrs. Charlie Ransom, of Natchez, were week-end guests of Mr. and Mrs. George Garner.

Mr. and Mrs. C. H. Campbell, of Duck Hill have recently returned from a three weeks stay at Hot Springs, Ark. Mr. Campbell was in the GCW office Tuesday.

Mrs. Ari Quantrell and little daughter, Trucida, are enjoying a two weeks' vacation trip at Russell Island, Lake St. Clair.

Mr. and Mrs. Herman Heath are spending this week in Amory with Mrs. Heath's mother, Mrs. Condry.

Mrs. J. R. Murphy and niece, Betty Jean Beard, are visiting their sister and niece in Winona this week.

Mrs. Robert Murphy is visiting her aunt in Hazlehurst this week.

Mr. Gus E. Heath, Jr., returned early this week from a vacation spent with his sister, Mrs. Stuckey and family, of Lepanto, Ark. The Stuckey family with Mr. Heath spent a delightful week in St. Louis and while in St. Louis they saw the baseball game between the Cardinals and Pittsburgh teams. This game was attended by over 25,000 fans.

The three interesting children of Mr. and Mrs. Giles Patty are enjoying vacation time at Choctaw State park. Mr. Patty has returned home from Hot Springs.

### W. R. NICOLS APPOINTED ON "AMERICANISM COMMITTEE"

Hon. W. R. Nicols, of Grenada, has received notice from headquarters of the Mississippi State Bar that he has been appointed as one of four members of the Americanism Committee of the State Bar Association. Hon. F. C. Holmes, of Hernando, is chairman of the committee and Hon. James R. Hillman, of Philadelphia, and Hon. Earl Wingo, of Hattiesburg, are the other members.

### BACK TO CENTRAL TIME

Effective September 1st, daylight saving time will be cast into the rubbish heap in Grenada, following official action Monday night by the City Council.

Country people never have observed the "new" time. Schools start on September 1st. Several hundred country children attend the Grenada City Schools. Much confusion would result from these conflicting hours between "country" time and "city" time.

### Seen, Heard and Told By The Editor

Juchheim is leading a good life here lately. He and Keene and Greenfield do not associate so much together as of yore.

Bate Costello brought us some peaches Saturday and we all appreciated them. That's a whole lot better than bringing in squares, blooms and open bolls, which nobody but boll weevils can eat.

Pine roosters and rosin eaters of South Mississippi are going to find slim picking in North Mississippi on Sept. 25.

## SPECIAL NOTICE

### TO LONG DISTANCE TELEPHONE USERS

Never before in history have our long distance switchboards been so busy. Long distance calls this year have already far exceeded 1940's record-breaking average, and the volume grows greater every day.

Industries with vital defense orders and booming Army and Navy posts are relying heavily on long distance service. In addition, calls from the general public have increased by leaps and bounds.

Despite our "all-out" effort to meet these rapidly expanding demands, our facilities are at times operated at near capacity. Occasional delays may be expected on some long distance calls. "Hold-the-line, please" service is not always possible.

To relieve the situation we are engaged in an expansion program costing millions of dollars. Many thousands of miles of new long distance circuits have been placed in operation this year, and more are on the way. Additions to many switchboards have been installed. Others are being set up as fast as they can be secured and our men can place them in operation.

But manufacture and installation of telephone equipment takes time, and defense priorities are making it increasingly difficult to secure essential materials.

Long distance telephone users can do their part in this present emergency by avoiding as much as possible placing calls during the peak long distance hours of 9 to 11 a.m. and 7 to 8:30 p.m. The understanding and cooperation of those we serve will be most helpful and will be genuinely appreciated.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY  
INCORPORATED

### GORE SPRINGS NEWS

The annual protracted meeting is being conducted at Gore Springs this week by the Rev. Mr. McCibben.

The Gore Springs H. D. Club ladies had the pleasure of attending a picnic given by the Chapel Hill ladies at the Canal, but owing to bad weather it turned out to be a traveling picnic. After a short stay at the Canal the crowd drove to the beautiful grove in front of the J. H. James home but the weather looked too unfavorable and they then went to the hospitable home of Mr. and Mrs. John James, where the doors of welcome was thrown open to the crowd and in the beautiful hall tables were placed and a real picnic feast was spread and all enjoyed it so much. If you want good food and lots of fun go to the Chapel Hill club and for welcome just stop at the John James home and there it will greet you.

Mr. and Mrs. McCutson, of near Sweetwater, spent Sunday in the home of Mr. and Mrs. Howard James.

Mrs. E. L. James is enjoying a few days visit with her children in the delta.

Rev. and Mrs. McKibben, of Duck Hill were dinner guests of Mr. and Mrs. Homer Trussell Sunday.

Prof. and Mrs. Eugene McGahey had as their guests Sunday Mr. and Mrs. T. J. Morgan and family and Mr. and Mrs. Jop Hembill.

Miss Jeannell Bowen is the guest of her grandfather, Mr. Guy Vite this week.

Mrs. H. C. Childs spent Friday in the home of her sister, Mrs. Homer Trussell.

Miss Dorothy Tucker, of Jackson, was the guest of her parents, Mr. and Mrs. W. D. Tucker last week.

Mr. and Mrs. W. H. Gillon were guests in the homes of Messrs. F. L. and S. E. Gillon Sunday.

Mr. and Mrs. Howard James have as their guest Miss Lura Phipps, of Illinois.

Mr. and Mrs. Earl Tharpe and son and Mr. and Mrs. J. E. Tharpe spent Sunday in Big Creek as guests of Mr. and Mrs. Ed Parker.

Mr. Jack Lamou was the guest of his father, Mr. Wallace Lamou Saturday night and Sunday.

Mr. and Mrs. W. D. Tucker and

family spent Sunday near West with their parents, Mr. and Mrs. Morgan.

Mr. Gaines Moore visited in the J. L. Moore home through the week-end.

Mr. and Mrs. Irwin Gray and daughter, Polly, were dinner guests of Mrs. Annie Tharpe and T. J. Sunday, in the afternoon Mr. and Mrs. Wilson and Mrs. Clogston, of Grenada, also called in this home.

Mr. and Mrs. J. G. Shaw, Mr. and Mrs. F. C. Tyner, Mr. and Mrs. J. E. Gray and Mrs. Annie Tharpe called in the S. E. Gillon home Sunday afternoon.

Mrs. Henry Pollan, of Seabey is the guest of her mother, Mrs. Dora Sultan this week.

Mr. P. H. Hicks, of Memphis, was greeting his friends in this community Saturday night.

Mr. Sam Gillon's many friends will regret to learn that it has been found necessary for him to go to Hot Springs and take a few baths, but hope on his return he will be much improved.

# WARNING!

## To The Citizens Of Grenada County:

All persons owning dogs or having dogs in their possession must have them vaccinated against Rabies by June 30th of each calendar year. If your dog is not protected you are subject to penalty already.

On August 30th there will be a person designated by the Sheriff and Health Officer of Grenada County to check up on these vaccinations. All persons with dogs not vaccinated will be prosecuted according to law.

## Protect Your Children By Protecting Your Dog Against Hydrophobia

In order to help you get your dog vaccinated Dr. Truss has been designated by the Sheriff and Health Department to vaccinate your dogs at the following places on dates below---the cost is 75c per dog. He will issue a State Certificate and tag, also a copy will be issued to the Health Department and the Sheriff of Grenada County.

The State Health Department report that there are hundreds of people taking rabies treatment at the present time.

ALL TIME IS DAYLIGHT SAVING TIME

NO HOUSE IS IMPOSSIBLE...

REPAIRS AND REMODELING ARE EASY AND INEXPENSIVE

HOUSES, LIKE PEOPLE, are as old as they look.

There is no reason why an 1898 house should still look like the "Bustle" period.

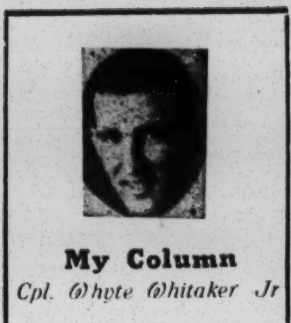

Architectural styles change frequently, conveniences are improved constantly, but the well-built old house need not bear the stamp of age.

Modernization, as we conceive this important activity, can make your house look like a 1940 home, no matter when it was built.

Costs are low too... and terms easy. Monthly payments you'll never miss can make your house look like a brand new home with all new-home conveniences.

**CITY LUMBER COMPANY**  
Phone 79 Grenada, Miss.

### My Column

Cpl. Whyte Whitaker Jr

Morale—the mental state that makes it possible to maintain courage, determination, and endurance in times of test and trouble—is definitely on the downward grade. Something must be forthcoming to create a higher morale; drastic measures must be taken.

Surely the citizens of Grenada should be proud of the men who were inducted into federal service November 25th. Not a single man in the 114 Btry. has "gone over the hill" (army slang for desertion). We haven't had a man sentenced to serve time in the guard house. Only last night (Saturday) men told me that in their company it was a common occurrence for them to "go over the hill." One said he had been gone for two months; while another said only the guard detail was left this week-end in his company. Most or maybe all of the men come back but it shows a lack of discipline leaving the area without a pass.

If a soldier would only think I'm sure he would not even consider "going over the hill." Evidently they disregard the seriousness of this offense. In my opinion it's a crime and disgrace to desert in this hour of emergency. Come what may, I sincerely believe there isn't a man in this outfit who would desert.

This writer like thousands of others in the present army is not suffering nearly the hardships that our forefathers underwent. Ever since that brave and courageous little band of patriots signed the Declaration of Independence the forefathers of tens of thousands of us have shed their blood for those ideals that they held near and dear.

Underneath the green sod and starry skies lie the men who made this nation; mother earth has reclaimed those who held so high the torch of freedom. These men, dead and mostly forgotten, whose deeds shall never die, left behind their blood, red American blood, for posterity. Let us all dedicate ourselves to the proposition that we will never fall short of the high standards we have as a precedent.

The able-bodied men now in civilian life won't remain there long. In this column's opinion, the 33 divisions will probably be split up in order to form others. As soon as the test is made here in Louisiana you can look for hundreds of thousands of new men being taken into the fighting forces. Prepare yourselves gentlemen, for the day of reckoning is drawing near.

Married men who are suffering undue hardships and those who have dependents are rightly being released from active duty; those who are single are rightly being kept on a tour of active duty. There has been words of adverse criticism concerning the additional 18 months training. If we must look horns with Hitler and his gang of barbarians we must be well trained to compete with his 5,000,000 veterans. Time and hard work are essential in producing an efficient combat force.

Just this little thought and we'll call it a day: The United States, the richest country on the face of the globe, is worth defending if it's worth living in. Our great leaders know that a national emergency now exists, that our country's safety is imperiled; are in a position to know far better than soldier or layman. Quit your griping and belly-aching—the fellow next to you doesn't like any life any better than you take it on the chin with a smile. "Make the most of the time you spend before you too into the dust descend." While we're at it let's repeat some logic: "Love America or leave it."

The 31st Tank Destroying Battalion has got more equipment in a week than our parent battery got in six months. Saturday we were issued 14 brand spanking new 37 m m tank guns. The other heavy weapon outfits (75 m m guns) have been issued for quite a while.

Corporal J. M. Martin requested me to inform his girl not to wait for him as he would hate for her to become an old maid.

We were extremely fortunate in being placed in the same battery with the Starkville boys. They're a swell bunch of fellows.

### Grenada's New Veterinarian

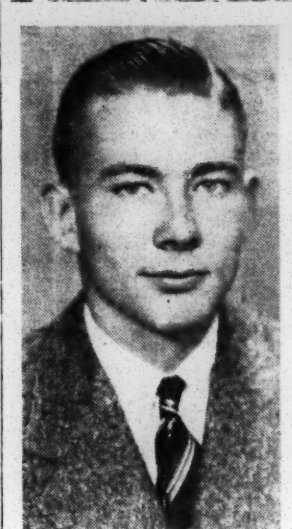

Dr. L. E. Long, for many years with the United States Bureau of Animal Industry, has moved to Grenada and will practice his profession as veterinarian in this community.

His practice has been mainly on the Atlantic Seaboard from Maine to Florida with the Food and Drug Administration.

He will announce the location of his office next week. For the present he is at City Hotel.

## Rice P. York Takes Oath At Annapolis

News was received in Grenada Wednesday that Rice P. York, second son of Mr. and Mrs. Frank S. York, had passed his physical examinations precedent to entering the Naval Academy at Annapolis, and that he was being sworn in on Wednesday.

The other son of this family, Frank York, Jr., has received his pilot's license at Mississippi State College. Congratulations are in order.

## Tax Commission Goes On Tax Token Hunt

Chairman Alf Stone of the State Tax Commission has set aside the week of Aug. 25-30 to be devoted exclusively to a statewide roundup of tokens. There is an increasing shortage of these sales tax tokens, and the manufacturers are unable to supply them, as a result of aluminum and brass being on the defense security list.

Under the plan, the one-mill aluminum tokens will be bought for 75 cents per pound, with the brass five-mills bringing 75 cents per pound. In cases where merchants desire to count and wrap the tokens, face value will be paid. Mr. Stone asks all merchants having more tokens on hand than they need to get them ready for the sales tax representatives when they call during the week of August 25-30. There has been no change in the law, and merchants should continue to collect tokens on all sales.

### DOG VACCINATION TO BE CONTINUED

The authorities are convinced that many dog owners did not bring their dogs to places designated for vaccination this week, and therefore have authorized Veterinarian Truss to make another intensive drive Monday, Tuesday and Wednesday of next week in accordance with a schedule published elsewhere. The law makes it incumbent upon peace officers to kill unvaccinated dogs.

## A DAY OF LIGHT AND LIBERTY FOR GRENADA

MAY 7, 1889

Last Tuesday morning, May 7th will be long remembered as one of the brightest episodes in Grenada's eventful history. It seems as if nature had combined with the arts and fashions of society to make it lovely and beautiful. The sun arose in streams of fire that shot over the eastern hills, subsequently bathing the world below in a flood of mellowest light. The bright vernal landscapes with her carpeted green, never looked more inviting, while the warbling music of the feathered songsters rolled in sweet harmony over the scene. Along our streets could be heard the merry voices of happy children, decked in all colors and styles of fashion, giving piquancy to the blending interstices of the hour. The whole town it seems across from slumber with a freshness that indicated a day of pleasure, and as the hours rolled on the prospects for a happy day widened, until it reached its climax in the union of all the forces on hand to make the growing excitement culminate into a large and well-ordered procession.

Tuesday was the first day for the meeting in Grenada of the Grand Lodge Independent Order of Odd Fellows of the State of Mississippi, as well as the day set apart for the laying of the corner stone of the Grenada free school

## 500 Soldiers Expected In Grenada Sunday

Mr. William Wright, Commander of American Legion, Grenada Post, is chairman of Reception Committee to welcome the 500 soldiers from Ohio who are to arrive in Grenada on Sunday, August 24, at 3 o'clock in the afternoon.

Mrs. W. W. Whitaker and Mrs. Ernest Penn, acting for American Legion Auxiliary in the absence of the President, Mrs. H. H. Cullen are cooperating with Commander Wright.

The Auxiliary is asking the ladies of Grenada to contribute 100 cakes. A phone committee has been named and it is necessary that promises made to this committee be fully carried out, as they (the committee) will discount their requests for cakes when a quota for 100 cakes is made.

The swimming pool will be open. A charge of 10c will be made.

The Grenada Theatre, showing Betty Davis in "The Great Lie" will be shown continuously, and the soldiers will be given a special rate. The community house will be open at 11 o'clock Sunday morning. Miss Mary Elizabeth McNeill will be there to receive the cakes. Commander William Wright will see that they are taken to the Fair Grounds in time for the soldiers' supper.

Miss Mary Elizabeth McNeill, in charge of Grenada Community House will keep open house at the Community House from 3 p. m. until 10 p. m. The soldiers are the people of Grenada are extended an invitation to come there. There will be a committee there to answer questions and direct the soldiers to places of recreation and the business section of the town.

In short, the citizenship of Grenada are asked to extend these soldiers a hearty welcome. Mrs. J. K. Aven, chairman of P. S. O. will assist Miss McNeill.

To those ladies who will donate cakes, and are not reached by the phone committee, we ask that you get in communication with Mrs. Ernest Penn, Phone 189 or Mrs. Whitaker, Phone 83.

The Reception Committee is asking for watermelons to be brought to town Saturday and delivered to the Community House. Many farmers will be glad to give the soldiers a real watermelon treat, so bring them in Saturday.

## Increase Officially Confirmed

By an affirmative vote of all aldermen, except Alderman J. D. Moss who was not present, the City Council officially increased the salary of each alderman from \$10.00 to \$25.00 per month, one-half to be paid from the General Fund and the other one-half from the Water Fund. At a previous meeting, Alderman Burr and Perry voted against the increase.

### BOONE WINS TWO HONORS

Mr. L. D. Boone, Grenada's champion Bridge player, who for the third consecutive year has won State Championship in the tournament held at the Robert E. Lee Hotel, Jackson, brought home two honors, when he returned from Jackson, last Friday.

In the "Open Pair" Mr. Boone and his partner, Mrs. E. C. McGarity, of Birmingham, were runner-up in 50 pairs; and in Men's Pair, Mr. Boone and Colonel Cole, of Dallas, Texas, were winners in twenty four pairs. Congratulations, Mr. Boone.

building by the Masonic Order. By eight o'clock our streets were thronged with visiting Odd Fellows, and strangers and citizens. About 9 o'clock the Odd Fellows and Masons emerged from their Lodges when soon the procession was formed. The Canon brass band was placed in the lead, followed by the Grand Lodge of Mississippi I. O. O. F. visiting Lodges of I. O. O. F., Masonic Grand Lodge of Grenada, teachers and pupils of Grenada College Institute, teachers and pupils of the Grenada free school, and then the citizens the whole making a long and interesting procession. The different Lodges looked splendid in their handsome badges and regalia, while the Grenada Collegiate Institute and Grenada free school forces were the admiration of all—their beautiful and artistic banners being the cynosure of all eyes. The procession with sweet strains of music, marched from the Lodge to Lake's cotton shed, thence to Griffith's corner, and up Main Street to College, and from there down Line Street to the public school grounds, where an immense assemblage had convened.

Mayor B. C. Adams in behalf of the citizens, delivered the address of welcome, which was short, but pertinent

## Who's At The Hospital

BY AUNT THEY SWEET

Patients in the Grenada Hospital: Mrs. W. C. Hubbard, McCarley; Mr. C. E. Jones, Grenada; Mr. G. W. Smith, Oakland; Mr. Jesse Snell, Carrollton; Mrs. T. D. Woods, Crowder; Mr. Homer Arrington, Coffeeville; Bertram S. Robertson, Calhoun City; Mrs. D. L. Gilliland, Sweetman; Baby Gilliland, Sweetman; Miss Audrey Sholton, Grenada; Mr. W. T. Arendale, Charleston; Mrs. C. E. Stone, Coila; Mrs. Arthur McNutt, Duck Hill; W. R. Townes, Holcomb; Mrs. Gene Heruendian, and; Melvin Gray-Ragan, Courtland; L. M. Ragan, Courtland; Mr. Hallen Webb, Grenada; Miss Bernice Cox Stuart; Mrs. Robt. B. Hill, Carrollton; Mary Lynn Hill, Carrollton; Mrs. Lillian Moore, Winona; Mrs. G. James, Grenada.

Patients dismissed: Mrs. C. L. Childs, Holcomb; Adair, Calvin, Carrollton; Mr. Charles C. Perry, Grenada; Mrs. S. S. Shapman, Grenada; F. M. Hicks, Batesville; James V. Mabry, Ladore; Dorothy Ann Crutcher, Batesville; Mrs. Carrie T. Allison, Grenada; Mr. C. L. McNeill, Jackson; Mrs. J. L. Sudduth, Black Hawk; Miss Ann Odum, Grenada; Mrs. J. F. McFee, Holcomb; Miss Grace Tyrone, Slate Springs; Mr. F. A. Dubanks, Coila; Betty Jean Wilson, Grenada; Barbara Ann Wilson, Grenada; J. W. Sanders, Coila; Bobby Jean Hayward, Grenada; Miss Eva Brandon, Coffeeville; Mrs. Carrie Womack, Coffeeville; Robbie C. Sanders, Vance; James Wayne Williams, Batesville; Benson Merritt, Big Creek; Jacquelyn Badders, Grenada; Mrs. B. J. Anderson, Grenada; Leonard Peters, Grenada; Mr. J. E. Locke, Winona; Human Hambrick, Vaiden; Shirley Hambrick, Vaiden; Mr. O. G. Thompson, McCarley; Jack Ward, Vaiden; Mrs. Homer Vaughn, Grenada; Herschel Saudier, Coffeeville; Doris Hill, Duck Hill; Mrs. B. F. Eubanks, Coila; Dr. W. P. Ferguson, Grenada.

Patients in the Grenada Hospital: Mrs. W. C. Hubbard, McCarley; Mr. C. E. Jones, Grenada; Mr. G. W. Smith, Oakland; Mr. Jesse Snell, Carrollton; Mrs. T. D. Woods, Crowder; Mr. Homer Arrington, Coffeeville; Bertram S. Robertson, Calhoun City; Mrs. D. L. Gilliland, Sweetman; Baby Gilliland, Sweetman; Miss Audrey Sholton, Grenada; Mr. W. T. Arendale, Charleston; Mrs. C. E. Stone, Coila; Mrs. Arthur McNutt, Duck Hill; W. R. Townes, Holcomb; Mrs. Gene Heruendian, and; Melvin Gray-Ragan, Courtland; L. M. Ragan, Courtland; Mr. Hallen Webb, Grenada; Miss Bernice Cox Stuart; Mrs. Robt. B. Hill, Carrollton; Mary Lynn Hill, Carrollton; Mrs. Lillian Moore, Winona; Mrs. G. James, Grenada.

## Williams For Doxey

Wall Doxey has character and determination in his face; sincerity and honesty in his heart; warmth of friendship in his handshake. He is the kind of man to whom Mississippians can always point with pride as "OUR" United States Senator!

He is a self-made man. His friends think he made a mighty fine job of it! Wall Doxey's life and public record prove it. You can PROBABLY vote for a man of his type, which I urge you to do on Tuesday, September 23rd.

DON'T FAIL TO VOTE!  
HOMER WILLIAMS,  
Grenada County Chairman

### WORK STARTED ON NEW OVERHEAD BRIDGE

Equipment has been moved in and construction camps have been established for the building of the \$118,000 overhead bridge which will be part of No. 8 Highway crossing the main line of the I. C. Railroad on the southern edge of Grenada. Ninety working days have been allowed for the completion of this project.

## Mrs. Carrie Allison Died Sunday Afternoon

Mrs. Carrie Allison, daughter of the late Mr. and Mrs. Eaf Thomas, and wife of the late Mr. Jones Allison, both of Beat Four, Grenada County, died in Grenada Hospital Sunday afternoon, August 17, 1941, after an illness which was beyond the curative powers of the skilled physicians and nurses who attended her.

She was 51 years of age and for a number of years lived in Grenada, the she and her husband, who were married 29 years ago, lived on Bang Creek while married. She was a devoted member of the Nazarene Church in Grenada.

Funeral services were held in the Central Baptist Church in Grenada with Rev. J. W. Lykins in charge.

Surviving her are two sons, Jones Allison and Travis Allison and a small daughter, Bonnie Jean. Two sisters, Mesdames J. E. Seals, of Jackson, and J. J. Cox, of Memphis, and a brother, John Thomas, of Benoit, also survive.

To the sorrowful ones, we extend our sympathy.

## E. L. Fite, Jr., Died Last Saturday

Earl Laron Fite, Jr., son of Mr. and Mrs. E. L. Fite, of Paynes, died in the Fite home at Paynes Saturday, August 16, 1941.

He was born July 20, 1933 in Grenada County and therefore was but eight years of age. He had attained the third grade in school and was on the honor roll each term.

The little fellow was a member of the Methodist Church. He had suffered a great deal in his short life and the medical skill of many specialists had failed to stay his passing.

He was buried at Gore Springs cemetery on Sunday with Brother Beverly in charge of the ceremony. Pallbearers were Messrs. W. G. Fite, L. T. Weir, Birch Stroud and W. A. Guyton. A simple ceremony was held in the home, then burial was had at the Gore Springs cemetery. The casket was banked with floral offerings.

Surviving him are his parents and his grandfather, Mr. Guy Fite of Gore Springs. He was the only child.

Sympathy is extended the sorrowful parents and relatives.

## Belgrade Resumes Operation After Long Shut Down

The beginning of operations at Belgrade Lumber Company Monday morning of this week was good news not only to the ninety odd employees of the mill but to the community in general which benefits from the regular payroll of this hardwood lumber industry.

It has been closed since April 30th when a disastrous fire gutted essential elements of the plant. Restoration of the ruined and injured parts of the plant began immediately but it was just Monday when the finishing touches were made on the plant.

During the interruption in operation, a huge stock of logs, estimated at a million feet, has been accumulated.

Mr. C. C. Cathey is General Manager of the mill.

## Ross Collins Spoke Here Friday Afternoon

By Carolyn Whitaker, Political Reporter

Many Grenada County voters gathered together Friday afternoon in the public square to hear Mr. Ross Collins, candidate for United States Senate, deliver his campaign speech. Before and after the speaking, the Parker

THOMAS ROSS COLLINS

CANDIDATE FOR U. S. SENATE

Family entertained the people with genuine Mississippi "hillbilly" music. Dr. Robert Clinton, one of Grenada's foremost physicians and County Health Officer, introduced Mr. Collins by saying that he was a man of great intelligence and ability and would be a good United States Senator.

Mr. Collins based his campaign on his record, his ability to be a public officer, and his energy to carry out all of his plans which he thinks would benefit the good people of Mississippi. Mr. Collins was Attorney General of Mississippi for two consecutive terms. The last election he was elected without opposition. Mr. Collins was elected to Congress by the people of his district for ten terms.

Mr. Collins used as the best evidence of his ability the fact that he foresaw the second world war. Fifteen years before the outbreak of the war that is raging in Europe today, Mr. Collins strived to get a bill passed to get America prepared for all world crisis that would arise. Many people who fifteen years ago said he was a silly dreamer now admit that he was right and perhaps if they had listened to him, the world would be at peace and our country wouldn't have to suddenly launch forth on a big National defense movement.

Mr. Collins said that he realized the underprivileged school children should be helped and that he has tried in every possible way to help them. The National Youth Association (NYA) which enables many children to help finance their way through school is one of the main things he has been partly responsible for during his time in Washington.

Mr. Collins is a member of the Sub-Agricultural committee. He stated that he has always been for everything that would help the farmer. Mr. Collins is a firm believer in Old Age Pension. He told the people that he was trying to get a bill passed so that the U. S. government would put up more money instead of only matching the money given by the state government to the old people. He said he realized that our state could afford only to put up a few dollars.

Today Mr. Collins is as firm believer in National Defense as he was fifteen years ago. The only difference is that he has the majority of the American citizens on his side this time. Mr. Collins made a plea to the mothers and fathers, and boys and girls of America to show our patriotism by helping every bit they can to aid Britain and defend America.

## Barbecue For Methodist Men Wednesday Evening

A barbecued chicken and lamb supper, with all the accessories was enjoyed by about 75 members of the Men's Bible Class of the Methodist Church at the hospitable country home of Aven McElwath Wednesday evening. Messrs. J. B. Perry and A. M. Carothers, teachers of the classes at the Baptist and Presbyterian churches respectively, were the only guests.

### COUNCIL EQUALIZING TAX ROLLS

Each Monday night the members of the City Council are devoting their time to the equalization of the tax rolls of the city. The council will continue this schedule until their work is finished.

## GRENADA COUNTY WEEKLY

W. W. WHITAKER Editor  
MRS. W. W. WHITAKER Publisher

Entered as second class mail matter at the post office at Grenada, Miss., under Act of Congress of March 3, 1879.

Subscription Prices: \$1.50 per Year in Grenada County and Vicinity; \$2.00 per Year for others. Subscriptions are Payable Strictly in Advance.

"Grenada County News A Specialty; Other News Used Only in Emergencies"

THURSDAY, AUGUST 21, 1941

## Poor Negroes

If the AAA itself does not know what the hell it is talking about in ordering cotton destruction, and if its engineers (3) can not accurately figure acreage, what the hell can one expect a poor ignorant negro to know about the situation?

We wished off on the old lady 300 acres of land near Oxberry several years ago, for we were tired of fooling with the government AAA, and we admit now that we did her dirty. On this 300 acres, the AAA graciously permits her tenants to plant 24 acres of cotton.

This year the engineer (3) measured the cotton and other acreage, and reported that 28 acres too much cotton had been planted. Apparently the first engineers (3) must have figured that she had plenty of soil building (or whatever they call it) for no demand was made to plant more trees.

She entered a protest and after paying \$1.70 for a recheck by other engineers (3). It was disclosed that the cotton acreage was for 22 acres, never, HELL, this time, there was a deficiency of about 3 acres in peas.

As this is being written, she is on her way to the farm to tell the negroes that they must plow up 22 acres of cotton and must plant 3 acres more peas. And following this another recheck with other engineers (3) will have to be made at HELL expense. God above knows what that recheck will disclose. Personally, we hope the next report of the engineer (3) will show that we have no land at all, that all of it was a huge joke, and if it is reported that the whole business is a huge, yet, tragic joke, THAT report will be RIGHT.

These tenants swear that they wanted to the row the acreage that engineers (3) lost year and the year before started was correct.

Being a civil engineer by training, and having viewed hundreds of acres of land, we feel that we have at least a vague idea of what an acre is. And it is our candid opinion that there is NOT too much cotton planted on that place. But what good is the OPINION of a civil engineer when pitted against that of the college boys who are hired to measure acreage? What the hell is the use anyway. The AAA is ALWAYS right.

These boys, who are hired during the summer to make these checks and thereby earn money to help themselves through college, are not to be blamed because they are not accurate in their findings. They just do not know and no reasonable person could expect to pick up a box out of a literary college and make an engineer of him just by suggestion. It is the damn system that is wrong.

Poor negroes! Poor Ma'am! Thank God I am not of that mess.

## The Northeast Mississippi Council

The Northeast Mississippi Council, now in process of formation, is to be designed along the lines of the very successful Delta Council, which has been a means of unifying the influence, political and otherwise, of the Delta people.

The N. E. Council as proposed will embrace about 25 counties in the northeastern part of the State and roughly will be bounded by the J. C. Railroad, the A. and V. R. R., the Alabama line and the Tennessee line.

Mr. George McLean, editor of The Topelo Journal, is head of the tentative organization and is the moving spirit in the formation of it. Council, Mr. B. J. Anderson, of Grenada, is chairman of the committee which will name the executive secretary—the man who will have to do most of the work. Headquarters have already been established in Oxford.

The people of this populous area—containing about one-half the votes of the State—have always worked at counter purposes with the result that their influence has been destroyed. Cotton farmers, who had already been accustomed to SMALL acreages of cotton, are permitted to plant not over one-fourth of their cultivated acreage in cotton in this area, while in the Delta, which had been accustomed to plant almost everything except the land covered by the miserable cabins and privies, the cotton farmers are permitted to plant at least one-half of their cultivated lands in cotton. The results of this maladjustment of acreage are very apparent. The N. E. Council proposes to try to do something about this vital matter.

The Delta people, realizing that they possessed numerical inferiority, and sense enough to send their BEST men, even if they had to be drafted, to Jackson and to Washington, while the hill people more often than not have sent ineffectual nonentities to the state and national councils. The Delta uses its numerical inferiority to the advantage of the Delta (read the papers when the legislature is in session and see how the Delta representatives rule the roost); the people of N. E. Mississippi use their numerical superiority to engage in factional fights and few men from this section have ever commanded any attention or respect in the legislature.

We would do well to pattern after the Delta Council.

## The Legs Are The Things

Many men and women are bemoaning the fact that, ere long, silk hose will be unobtainable, and that nylon, rayon and cotton yarns will have to be used in making hose for women.

If a woman has shapely legs, she need not worry what they are encased in, or whether they are encased at all.

The legs are the things, after all.

Files know no home. They eat breakfast in a vile toilet and, without wiping their feet or washing their hands, take dinner on Main, Margin, South or Slender street. Nobody seems to know what to do about enforcing the very plain city ordinance about open toilets.

Me and the GCW.

## Example

Sturgeon Bay, Wis., is a prosperous, wide-awake country town. It is prosperous because it is the market place for a considerable trading area. Its business people are merchants, not merely storekeepers. They carry adequate stocks and display and advertise these stocks effectively.

One reason for conditions at Sturgeon Bay is its newspaper, the Door County Advocate. Without any blame of trumpets, it has for many years quietly encouraged the carrying of better and larger stocks and better merchandise displays. Its publishers have rendered all possible assistance in the preparation of effective advertising.

Exceptional but typical is the Schofield Hardware company's store. It is three large floors filled with a complete line of hardware, including such home furnishings as gas, oil and electric cooking ranges, electric and gas refrigerators, lighting fixtures and other items for use in the home, as well as a complete line of hand and power tools and builder's hardware.

It is not a hodgepodge of hardware items, but all are attractively displayed to appeal to possible purchasers. Included in the display is a glass enclosed working model of an electric refrigerator. When Mr. Schofield was asked if it attracted attention, he replied that it had been the main help in selling more than 100 refrigerators during the season.

The Schofield store is not a new experiment. It has been in Sturgeon Bay for 50 years. It attracts customers not alone from the town and surrounding farms, but from places as far away as Green Bay, Manitowish and Sheboygan. It does an annual business of better than \$200,000 and it does, and always has, discounted every bill.

That store is an illustration of what is possible in a country town. It is a demonstration of the value of carrying adequate stocks, of practical merchandise displays and effective advertising.

What has happened at Sturgeon Bay can be made to happen at many another town in America. The same quiet, consistent efforts to encourage larger stocks, better displays and merchandising methods and more effective advertising made by the Door lines of merchandising in each town in which the effort is made.

Such efforts will save the country market places of America. Publisher's Auxiliary.

## A Hamstrung Defense

(Commercial Appeal)

Not since mid-June has the defense strike picture been as ugly and discouraging as it is at the present.

Last week there were 42 defense strikes in progress. They involved 48,100 employees. They cost the defense effort the loss of 1,000,000 man-hours.

In reality, the situation is more serious than in June when disputes closed the North American plant, and two aluminum plants, Bohn at Detroit and Aluminum Company of America at Detroit, and all the San Francisco Bay shipyards.

Present strikes involve the Kearney, N. J. yards of the Federal Shipbuilding & Drydock Co.; the Curtiss-Wright Propeller Plant; Ampco Twist Drill Co.; Henry Vogt Machine Co. and Mack International Truck Company, among others.

Delayed by current strikes are \$500,000,000 worth of naval contracts alone, and other contracts covering such commodities as aircraft engine parts and propellers, tank parts, shell-machining equipment, gun and ammunition forgings, bomb castings, gun mounts, surgical instruments, chemical manufacturing equipment and machine tools, as well as food, clothing and other supplies.

Up until the Nazi invasion of Russia it was possible, with good reason, to blame many of the defense stoppages on radical labor activities. That is no longer possible. The Communist Party in the United States has gone "all out" for Russia. The Communist front organizations in labor are not those now creating the most trouble.

The strikes apparently stem, not from higher wage demands, shorter hours, or better working conditions, but from labor's desire for greater power and from lack of a labor law which will grant to labor and industry equal responsibility as well as equal rights.

It stems, too, from the refusal of Congress to provide any legislation whatever which would give the Government power to police, struck defense plants and keep them operating in the face of an arbitrary labor or industrial attitude.

The Defense Mediation Board appears impotent in coping with the situation, and the Labor Department unwilling to interfere. Out of last week's 42 strikes only four were turned over to the Mediation Board, yet, with 13 cases on hand, that agency claims it is swamped with work.

What has happened is that labor has launched an intensive campaign in behalf of compulsory unionism—the closed shop in any form—and judged by appearances and behavior it is having full governmental support in the effort. That, and that alone, is the basic cause of the New Jersey shipyard strike.

There are other related causes—competition between the C. I. O. and the A. F. of L., the removal of congressional threat to restrict union activities in defense industries, failure of workers to understand the extent of the national emergency, and, too, the rising cost of living.

So long as the Government attitude toward defense labor remains what it is, that of "most favorable element," the outlook is dreary if not downright alarming. This Nation set out to beat totalitarianism. It has already gone a long way toward beating itself. Appeals to patriotism and reason no longer suffice to put an end to the obstruction. What it is going to take is a courage and a high-mindedness of purpose which those in Government have not yet proved they possess. In the ultimate it may take an uprising and upsurging of outraged and patience-exhausted public opinion to press a Government into action.

The campaign is warming up, having reached the "hot" stage in The Topelo Journal which says that Pearson and Allen fled when they stated that Bilbo was running Dooey's campaign.

Well, it seems that our comments last week about the aldermen's salaries and the Mayor's salary stirred up some comment, if nothing else.

## Just Suppose

Just suppose that Grenada county had no better cotton crop than some of the pessimists predict, and at the same time suppose that Grenada, like many county seat towns, were dependent entirely upon the agricultural crops produced in its trade area.

Fortunately, Grenada is not entirely dependent upon the crops produced in Grenada County, otherwise Grenada would be scarcely as large as Coffeeville—which has better land about it. Grenada is fortunate to have the slave mills, the hosiery mill, the saw mills, the big wholesale grocery company, the many car dealers and garages, the oil mill and the compress, as well as having very attractive retail establishments which serve as magnets to draw customers from beyond the borders of Grenada County.

Fortunate indeed is Grenada, believe it or not.

## Ends Justify Means

The ends sought by the extension of the service periods of the selectees from 12 months to 30 months justified the means employed to gain these ends.

It seems utterly foolish to liberate from service a lot of half-trained men and restart the army with a bunch of recruits. Times are too serious for any such business as that.

Yet, there is serious business in and there is a bad precedent set by the government in breaking its contract with the selectees, who were drafted to serve ONE year.

It seems to us that the administration should make every effort to show the selectees, held in service beyond their terms, how necessary such an extension of service is. These young men should be placated as far as possible. An army without morale is worse than an army without guns and ammunition; an army without ETHICS is no army at all.

While the President is very, very busy, we believe he should have a fireside chat with the selectees and tell them the "whys" of the situation; and that every selectee in the army should have an opportunity to hear the Commander in Chief.

We are mighty proud of the patriotic sentiments expressed in our son's column this week. On his mother's side, his ancestors fought in every war that Sweden had, and on his father's side his ancestors fought in every American war.

The time is close at hand when an able-bodied young man will actually be ashamed to be seen walking about the streets while other young men are preparing to defend the country's vital interests.

It would take a stroboscope to detect any interest in the senatorial contest. At that, the doctor would have to have mighty good ears.

Pay your subscription.

Alibi they sweet.

## FROM A REBEL HILL TOP

By The Grenadier

Ever so often something comes up in the news, or in our personal experience, which confirms us in the belief that this is a small world after all. In fact, at the speed with which events are happening on the old earth these days, the world is becoming uncomfortably small.

For many years now, events which have happened at a great distance have eventually made themselves felt at home—but as transportation and communications have been greatly speeded up, and as foreign trade between nations has reached large proportions it now takes only a matter of days until we feel the consequences of disturbances in trade which occur at very distant places in the world.

In Grenada, for example, we are quite familiar with the fact that since diplomatic relations with Japan have reached a critical stage, operations at our fine hosiery plant may be affected, although not seriously. The management of Grenada Industries is especially well informed and competent, and has naturally known for some time that our relations with Japan might eventually have a direct bearing on their business.

The news of disruptions in business have directed our attention to the unfavorable effects of our restrictions on trading with Japan. But it is an ill wind that blows no good. Down in quaint and quiet Saint Francisville, Louisiana, my good friend, Mr. Harry Daniels, showed me something of the favorable side of the picture which was both interesting and encouraging.

Quite often, in my discussions of Southern social and economic matters, I comment rather sharply on Southern shortcomings, and nothing is so pleasing as to be able to report intelligent and progressive steps, taken by Southerners, to advance the general prosperity of Dixie.

If you have ever had the good fortune to be in Saint Francisville in Springtime, you have been delighted to view the beautiful Easter Lilies which adorn the old fashioned gardens along its historic thoroughfares. As you probably know, Easter Lily bulbs are mostly imported from Japan, although quite a large number are grown in Plaquemines Parish, Louisiana, which is the peninsula through which the mighty Mississippi flows into the Gulf of Mexico.

Mr. Daniels showed me an out building, on the floor of which were spread several hundred lily bulbs. And in the garden nearby were three small lily beds, each one about ten feet by twenty five feet, in which they were grown. The interesting feature of this story is in the fact that although there is really no effort involved in raising the lilies, the bulbs which these three small beds produced were worth over one hundred dollars.

Quite frequently I insist that when intelligence and energy are combined in Dixie, this Southland will blossom into a veritable paradise. And this is certainly a delightful example of not only having paradise in our midst, but of having it a profitable one also.

Dr. Julian C. Miller, the quiet and industrious wizard at Louisiana State University, is certainly one of the most constructive influences in the South today. He conducts experiments at Baton Rouge which materialize in terms of dollars in the pockets of Southern planters. And there are, in Louisiana, men of the foresight and energy of Mr. Daniels, who cooperate wholeheartedly in practical experimental programs, both to their own profit and to the benefit of the Southern states generally.

Congratulations Dr. Miller and Mr. Daniels, and our grateful appreciation for your courteous and friendly assistance when I am in Louisiana.

## —UNDER THE MAGNOLIA TREE—

By Herbert B. Allen

My first months in Grenada have been punctuated with frequent visits to many parts of the Southland—in fact my surveys and investigations of agricultural and economic conditions and possibilities have carried me into every state in Dixie—and into the east, west, and north.

The preliminary surveys which are to provide the foundation for the program of expansion which has for its objective the expansion of business opportunities in Grenada are nearly completed. After September fifteenth, most of my time will be spent in and around Grenada, and such traveling as will then be undertaken will be principally in the company of Grenadians who are directly interested in the specific projects under investigation and development.

During my sojourn in the Southland I have been brought into association with many persons distinguished by interesting personalities, and creditable accomplishments; and who possess constructive ideas with respect to the future of their beloved Dixie.

In the near future it is my intention to write a series of short biographical sketches to be entitled, "SOUTHERN SILHOUETTES" in which personalities well known to Grenadians will be portrayed as they are seen by the writer who observes men and events from the kindly shade of the Magnolia Tree.

Commencing with the first issue in September The Grenada County Weekly will carry this series of biographical articles in which Southern gentlemen, and gentlemen, will be portrayed for our readers as they are seen through Canadian eyes. The first sketch will be of the Honorable William Winter, our distinguished Senator in the State Legislature.

Why keep the good deeds of our friends

A secret in our breast?

Better give thanks and credit

Long ere they're laid to rest!

When I was a little boy in Canada, and older members of the family were discussing some unfavorable development, I knew that it would be only a matter of minutes until my wonderful Quaker grandmother would remind them quietly that, "God in His wisdom orders all things for the best." Since my grandmother spoke with an authority founded on a sound knowledge of God's word, no person ever took exception to her judgment in such matters.

Her words often recur to me as I travel through the South and traverse regions that were once famous for their heavy production of cotton, but which, due to destruction by boll weevils, now produce very little of the fleecy staple. One such district which comes to mind is along the Alabama-Florida border, from Abbeville, Alabama to Marianna, Florida.

For miles at a stretch the highways pass through large peanut plantations, and in nearby cities and towns these peanuts are processed for markets. It would appear, therefore, that in the present state of the cotton markets the boll weevil devastations were really a blessing in disguise to those planters, and that in the end they are better off for the disasters they suffered when their cotton was destroyed.

No longer are they living in a one crop economy where the price for their product is an artificial one and for where no one can predict a rosy future.

In Abbeville, Alabama, the Mayor, Frank W. Fish, is a grand person—and a veteran. Under the guise of inviting a veteran up here to spend a couple of pleasant days with us, I am going to lure Frank to Grenada and get him to tell us how peanuts were introduced, on a large scale, in his home county. What do you say, Frank?

Grenada business men, whose interests make necessary a thorough understanding of business conditions at home and abroad, are under no illusions as to the seriousness of the immediate future. Beyond the immediate future, no sane person would hazard a guess as to the developments which confront us, either in the United States, or abroad.

In my talks to public groups, and in my writing in these columns, I have from time to time made some drastic comments on what is in store for Mississippi if great changes are not brought about by Mississippians—and very soon.

These views are shared by leading members of the business and professional community, and by leaders in industrial and agricultural circles. What is being done in Grenada, in an effort to anticipate the future, is receiving favorable attention in many important quarters. Many expressions of encouragement are given to me verbally—and some commit their thought to writing.

Among those with whom I have had serious conversations with respect to the future of Mississippi, is the capable, and action loving, Jim Eastman, our Senator from the neighboring Delta. In a recent letter, he generously referred to this writer, and to his objectives, in these encouraging terms.

Senator Eastman wrote: "I appreciated meeting you. If the South had more wide awake, progressive, far-sighted and fearless individuals like you, we could go places. We have more natural resources than any other space in the world with similar area. We have plenty of good, pure Anglo-Saxon labor, the finest people in the world, and yet with all of our resources, we are the poorest section of the United States. Our poverty is appalling, and we must have leadership during the next few years if we are to regain our place in the sun." Thank you, Jim.

## Jack Robinson

I know a grand guy from Chicago,

Who fought the Boer War for the Crown;

When Uncle Sam tangled with Spaniards,

He didn't let Uncle Sam down.

He went with the Yanks to the Big War,

And served with my friend Captain Scott;

He's always around when there's trouble—

He's happiest when things get hot!

But when he gets 'round to the ladies,

He quails before flashing dark eyes;

At bullets he shrugs his lean shoulders—

Before a brunette he'll capsize!

So come Colonel Kahn to the rescue,

He'll follow if you lead the way;

And once he gets in the arena,

I'll trust him to know what to say!

—Herbert B. Allen.

### MISS MITCHENER HONORED

The lovely home of Mrs. Andrew Carothers was the scene of a delightful courtesy party Tuesday morning at ten o'clock, honoring Miss Mary Rose Mitchener, of Sumner, a niece of Mrs. Carothers, who is spending the week here.

The home was beautifully arranged and decorated with choice garden flowers for this occasion and as the guests arrived they were escorted to the summer living room which was most attractively arranged and located to give a view of the garden of the home.

Mrs. Carothers served a dainty refreshment plate containing olive and cheese canapés, tomato sandwiches, potato chips, cookies and candy, and iced Coca-Cola. Pop corn was served from a large Mexican bowl.

Included as guests at this delightful affair were the following young ladies: Misses Mary Rose, Mitchener, Martha Ross Brown, Mary Louise West, Ann Neely, Betty Rule, Dorothy Whitaker, Elizabeth Oakley, Grace Smith, Mary Ann Scott, Mary Douglas Howey, Lillian York, Helen Horton, Etelle Dubard, Louise Sanderson, Caroline Whitaker, Lucy Webb, Sharp, Eloise Wilkins, Sue Vandiver, Susan Proby, Virginia Echols, Ethel Nichols, Edith Penn and Mrs. Heck Labe, Jr.

### MISS McEACHERN, R. N.

Miss Mary McEachern, R. N., who served as student nurse at Grenada Hospital for three years, endeavoring herself to so many patients receiving treatment at the hospital, passed her state board examination at Jackson, Miss., on July 28, 1941. On Tuesday of this week, Miss McEachern left for Indiana to enter the King Daughters Hospital for a year of post graduate work. Congratulations, Mary.

### SOLDIERS VISIT AT HOME

A group of soldiers from Louisiana whose homes are in Grenada, were here for 36 hours the past week-end, returning to camp Sunday night. They were H. D. Lane, Jr., Frederick Theismann, "Bulldog" Echols, John Payne, Henry Lay, Jr., C. C. Cullen, Walter Welsh, Sam Provie, Bill Murray, Sgt. Jim and Ross, Carl.

Mr. and Mrs. E. R. Prondt had as their guests, Thursday and Friday last, Miss Allie Evans of Memphis, Rev. G. W. Evans and son, George, of Galveston, Texas, and Miss Adelaide Duval of Sardis.

Mr. Fred Murray, who is "soldiering" in Illinois was at home Sunday.

Aviation Cadet Cleon Proby, son of Mr. and Mrs. L. C. Proby, who has completed his training at Hicks Field Fort Worth, Texas, was here for a week-end visit with his folks. He left Sunday afternoon to resume his duties, reporting at Brady Field, Brady, Tex. as on Monday.

Mrs. L. E. Lester, of Water Valley, has visited here with her husband the past week. Mr. Lester is manager of the Grenada Drug Store.

Deva Prondt, of Memphis, spent the week-end with his parents.

Mrs. H. B. Jordan and children, of Louisville, Mr. and Mrs. C. L. Sizemore and children, of Memphis, passed through Grenada Sunday, enroute to Louisville to visit Mrs. Sizemore's sister, Mrs. Jordan and family. While in Grenada they visited their relative, Mrs. Rule and children, Miss Hazel Inman and Miss Estelle Rollins.

Miss Betty Rule and brother, Mr. Dick Rule will leave Friday morning for Carlsbad, N. Mexico. Dick will visit his father there for two weeks before going on to Los Angeles to continue his studies.

Mrs. J. N. Ester and children, and Mr. and Mrs. Joe Steven, of Jackson.

Miss Mary Kathryn Gay, of Memphis, spent her vacation with her aunt, Mrs. S. M. Brown and Mrs. J. E. Perry returned to Memphis Saturday after two weeks visit with relatives in the Plant.

Miss Robbie Sam Clanton and Mrs. Buster Clanton spent Wednesday in Memphis and to hear Henry Busse at the Claridge Hotel.

Miss Lydia Meek Estes spent last week-end with her parents at the Plant.

Mr. and Mrs. Bob Dubard and son, Jackie and Mr. and Mrs. Buster Clanton spent Sunday in Memphis.

Misses Lola Belle Horton and Dorothy Spruill have returned from Columbia, Fort Jackson, S. C., where they visited with Lola Belle's brother, Lt. John P. Horton.

Miss Mary Louise West returned home on Thursday of last week from New York City. Miss West, who has a beautiful soprano voice, studied voice while there.

Mrs. J. R. Arent and Mrs. Alfred Bryant, of Coffeeville, spent Wednesday in Memphis.

Mrs. H. J. Williams, who has been visiting her aunt, Mrs. Miller, in New Orleans for two weeks, will return home this Friday.

Mr. and Mrs. J. C. Dabney and two attractive children have returned home after a two weeks vacation at Biloxi.

Mr. and Mrs. Vernon Williams and two daughters returned home Sunday from a visit in Tulsa, Okla.

Mrs. C. C. Cullen and daughters are visiting relatives in Tulsa, Okla.

Mrs. Zila Quiggins and little daughter, of Memphis, are visiting their mother and grandmother, Mrs. S. C. Mills.

Mrs. Constance Thompson returned Friday after spending most of the Summer at the Methodist Camp Ground in Biloxi.

Miss Mary Lou Cullen is visiting relatives in Tulsa, Oklahoma.

### CELEBRATES FOURTH BIRTHDAY

On Tuesday afternoon, August 12th little Miss Alma Maxine Dubard entertained 15 of her little friends, the occasion being her fourth birthday.

The little girls and boys enjoyed games on the lawn of the Dubard country home after which they were served ice cream and cake around a

ALMA MAXINE DUBARD, FOUR

years old. The party was given in the garden, decorated with pink roses and ferns, centered by a white and pink cake with four tiny candles.

The guest list included Diana Duval, Walter Garner, Charles and James Perry, Jacqueline Sanderson, Arlene Pierce, Sandra Carothers, Dorothy Long, Jeff Lester, Marjorie Ann King, Cass Heath, Marilyn Smith, Walton and Lewis Lipscomb and Barbara McCurdy.

Miss Constance Thompson, who is now stewardess of the Southern Air Line between Memphis and Chicago, came home for a two-days visit Sunday night.

Mrs. J. P. Fisher and little daughter, Pauline, of Jonestown, brought their sister and aunt, Miss Robbie Duval, back to Grenada Tuesday last. Mrs. Fisher and Miss Pauline visited in the home of their sister and aunt, Mrs. John King.

Mrs. D. R. Brown left Sunday for Birmingham where she will visit her children, Mr. and Mrs. Sam Houston.

Mr. and Mrs. L. D. Boone attended the bridge tournament in Jackson last week.

Miss Lucille Craddock of Jackson is spending her vacation in Grenada with her sister, Mrs. Roger Burr.

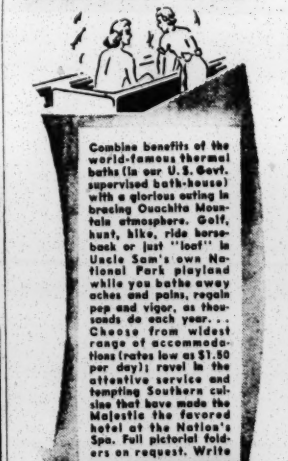

Jack and Eddie Butler, of Memphis, visited their parents, Mr. and Mrs. G. W. Butler over the week-end.

Miss Marion Dubard, who has been teaching in the Summer School at Aberdeen has returned to Dubard to spend the remainder of the Summer.

Mr. and Mrs. Joe B. Williams, Jr., and little daughter, Martha Fay, spent their vacation week in the Delta.

Rev. John W. Young and daughter, Miss Mary Jane, of Jackson, spent the week-end with home folks in Grenada.

### AMERICA'S Greatest VACATION VALUE

Combine benefits of the world-famous thermal baths (in our U. S. Govt. supervised bath-house) with a glorious setting in the heart of the Ozark Mountains. Golf, hunt, hike, ride horseback or just "loaf" in Uncle Sam's own National Park playground while you bathe away aches and pains, regain pep and vigor, as thousands do each year. . . .

Cheese from widest range of accommodations (rates low as \$1.50 per day) revel in the attentive service and tempting Southern cuisine that have made the Majestic the favored hotel of the Nation's Spa. Full pictorial folders on request. Write

HOT SPRINGS NATIONAL PARK, ARK.

### R. AND P. W. CLUE

The Grenada Business and Professional Club met Wednesday evening, August 13th at 8:00 o'clock in the home of Mrs. Marka Long with Mrs. Beatrice Beard as hostess.

After a very tempting plate, the meeting opened with the reading of the Club Collect and roll call. There being but very little business, Mrs. Trotman, president, discussed each month's program from September thru May.

At the conclusion of the business session, the club enjoyed a number of Progressive Ringe. Each member and guest was given a corsage with a talisman attached. At the end of the games when the ladies were asked, a lovely gift was presented to the members with each seated at each table. Paul Betty, chairman.

Mr. and Mrs. John Bibb, of Drew, Miss., visited Mrs. J. A. Kettle Sunday afternoon.

Mrs. James Walton Lipscomb and sons, Lewis and Walter, of Jackson, have been the guests for the past two weeks of their parents and grandparents, Mr. and Mrs. L. A. Dubard, of Dubard.

Mrs. J. C. Mcurdy and children, Barbara and Biddy, have returned to their home in Pine after a visit with their sister and aunt, Mrs. Lewis Duval, Jr.

Miss Eunice Marion Dubard has returned home from Aberdeen, where she has been teaching kindergarten for the past two months.

Mr. and Mrs. P. T. Leflore, of Greenville, were in Grenada Sunday. Their little daughter, Bonnie Rose, who has visited the daughter of Mr. and Mrs. Vernon Williams, also Bessie Horn, returned to Greenville, with them.

Rev. and Mrs. C. S. Liles and little daughter, Dorothy, are visiting their parents, Mr. and Mrs. Shields at Morton and Mr. Liles at Forest.

Messrs. E. L. and Harry Burkley and families are enjoying having their sisters, Mrs. H. D. Ayre, of Malden, Mo., Mrs. Carmel Truist and Mrs. Allan Price and son, of Kennett, Mo., and Miss Evelyn Ayre, of Clinton, Mo. here for a visit this week.

Miss Kathleen Johnson, of Washington, D. C., accompanied Mr. and Mrs. Turner to Grenada when they visited here last week in the home of Mr. and Mrs. Talbert Turner.

Mrs. Norma Caldwell of Jackson is visiting her sisters, Mesdames W. M. Mitchell, F. T. Gerard, and Albert George.

## DOGS MUST BE VACCINATED!

Dr. Truss, whom we designated to vaccinate the dogs of Grenada County, made the rounds of the county Monday, Tuesday and Wednesday of this week in accordance with a published and widely distributed schedule.

We are convinced that a small percentage of the dogs of the county was brought to him for vaccination. Therefore, he is going to make another round next week in accordance with the schedule published below.

Attention of dog owners, as well as of all game wardens and peace officers is invited to Section Seven of House Bill No. 81, Approved April 4, 1938, as follows:

SECTION 7. The failure or refusal of any person to comply with any of the provisions of this act shall constitute a misdemeanor; and the offender shall, upon conviction thereof, be fined for the first offense in a sum not to exceed Five Dollars (\$5.00); and for the second offense in a sum not to exceed Twenty-five dollars (\$25.00); and for the third offense in a sum not to exceed Fifty Dollars (\$50.00), together with all costs. And it shall be the duty of the sheriff, game warden, and all peace officers of the counties and municipalities of Mississippi to enforce this act, and if said peace officers, as hereinabove set out, to kill or otherwise destroy any and all dogs, above the age of six months, who are running at large and have not been inoculated (vaccinated) as required in this Act; and it shall be the duty of the county attorney and district attorneys of this State to prosecute all violators of this act.

T. T. HAYWARD, Sheriff

### SUPPER CLUB MEETS

The lovely new home of Mr. and Mrs. L. E. Noble was open to members of the Saturday Night Supper Bridge Club on Saturday last which sixteen guests assembled for a delicious and informal entertainment. The honor guests at this meeting were Mr. and Mrs. C. S. Burt, so soon to move to their Memphis home. The club presented them two very lovely ornamental shaped like lilacs, for holding miniature flower arrangements.

Mr. and Mrs. P. T. Lagrone, of Greenville, former members of this club, and Mrs. E. J. McGee, of Pittsburgh, Pa., guests of Mr. and Mrs. C. S. Burt, were present to enjoy Mr. and Mrs. Noble's hospitality.

### "HOUSE WARMING"

Mr. and Mrs. Victor Miles, who have recently moved into their new home on Mount Street entertained a group of Student Nurses, including Mrs. J. C. Morgan, one evening this week.

The home was charmingly arranged and refreshments served. A very delightful time was had by all.

Mrs. Athlyn Holland and daughter, Miss Virginia (who recently appeared at the MOAT as one of the talented dancer-guests of their relatives, Mr. and Mrs. Cole of Glenfield).

Mrs. Jennie McBride, mother of Mrs. C. M. Jones, returned to her home in Carrollton after a visit here with Mr. and Mrs. Jones. The daughter of this home, Miss Kathryn Jones, of Jackson, visited her parents the past week end and her father took her back to Jackson Sunday afternoon.

Mrs. Gertrude Marders is visiting in home of her sister and brother, Dr. and Mrs. Fridly in Memphis.

Miss Gene Marders attended a home party in Batesville last week.

Mrs. H. D. Lane Jr., Misses Lacy Webb Sharp and Louise McCaslin are spending the week at Chocktaw Park.

Mr. and Mrs. Milton Meek and little son, Gary, are being welcomed back to Grenada. They are living at Mrs. John Martin's home. Mr. Meek is the manager of Chicken Inn.

Mrs. John Martin enjoyed having her sisters, Mesdames W. D. Harmon and J. W. Whitten and nieces, Mrs. Marie Lewis and Misses Erin Whitten and Sarah Rollins Lewis of Batesville for a visit Tuesday, on Wednesday and Thursday. Mrs. Martin's guests were Mr. and Mrs. Willburn Riley, of Crawfordville, Ark.

Dr. and Mrs. C. K. Bailey and daughter, Miss Isabelle, and son, Cliff, Jr., are enjoying a week on the Mississippi Coast at Biloxi.

Misses Mamie and Willie Cuff are enjoying a vacation at Daytona Beach, St. Augustine and Miami, Fla. They left Sunday.

### PRICHARD HOUSTON

Mrs. Mary Houston, of Grenada, announces the marriage of her daughter, Miss Mary Houston, to Mr. Frank Prichard, son of Mr. and Mrs. Frank Prichard, of Oakland.

The wedding was solemnized at the home of the bride's brother, Mr. Lew Houston in Clarksdale August 13, 1941, the Rev. Caffey, pastor of the Methodist Church officiating.

The bride's mother, Mrs. Mary Houston attended from Grenada. After a honeymoon they will reside in Houston, Texas.

### VISITORS

Mrs. Roger Pleasants was a gracious hostess to relatives from Minter City on Wednesday and Thursday of this week. Included were Mrs. Mary Walker McBride, of Greenwood, Mrs. Gillon, Mrs. Frank Pleasants, Sr., and granddaughter, Mary Hughes, Mr. and Mrs. A. Y. Sturdivant and Archibald, Jr. Sturdivant, of Minter City.

Miss Frances Jennings of Memphis, visited her grandmother, Mrs. W. J. Jennings, last week.

Mr. and Mrs. C. E. Rotheri who reside in Iowa, were guests of Mr. and Mrs. O. T. Jeddeman last week.

Mr. and Mrs. E. J. McGee, of Pittsburgh, Pa., were weekend guests of Mr. and Mrs. C. S. Burt. Guests in this home this week are Mr. and Mrs. A. K. Burt, of Louisville, Ky.

Miss Jean Scott Burt returned home Tuesday, from Oxford, La., after a visit with her aunt Mrs. Roy Hughes.

Mrs. John Bradley and daughter, Virginia, also little Kites Bailey, moved to Belzoni on Wednesday to get Margaret Bradley, who has been visiting her grandfather Bradley and family the past two weeks.

Mrs. McBride, nee Mary Walker Duncan, of Greenwood, is the guest of relatives here this week.

Mr. George Garner and son attended to business in Jackson, Miss., on Wednesday.

Miss Betty Jane Sorrels has returned home in Benton, Kentucky, after spending two weeks with her aunt, Mrs. H. D. Horn.

### NOTICE TO CITIZENS OF GRENADE

Realizing the desire of the Citizens of the City of Grenada, to cooperate with the Defense Program, suggested by President Roosevelt, also Governor Johnson, regarding Daylight Saving Time, I, R. W. Sharp, Mayor of the City of Grenada, issued a proclamation designating August 1st as the beginning of Daylight Saving Time in our City.

Since our Public Schools are to run on Central Standard Time, it would bring about confusion if Grenada continued on Daylight Saving Time, I therefore hereby said proclamation and the City of Grenada will return to Central Standard Time September 1, 1941.

In testimony whereof I have hereunto affixed my signature and seal of the City of Grenada, this the 19th day of August, 1941.

R. W. SHARP, Mayor,  
City of Grenada.

The following resolution or ordinance was introduced, its adoption moved and seconded and put to a vote. Aldermen Burkley, Horn, Boone, Perry and Burt voting for its passage. Aldermen none voting against same and Alderman Moss being absent and not voting, it was declared duly adopted and ordered entered on the Minutes as follows:

An ordinance or resolution to fix the annual salary of the Aldermen of this City for the year of September 1st, 1941, to and including August 31st, 1942.

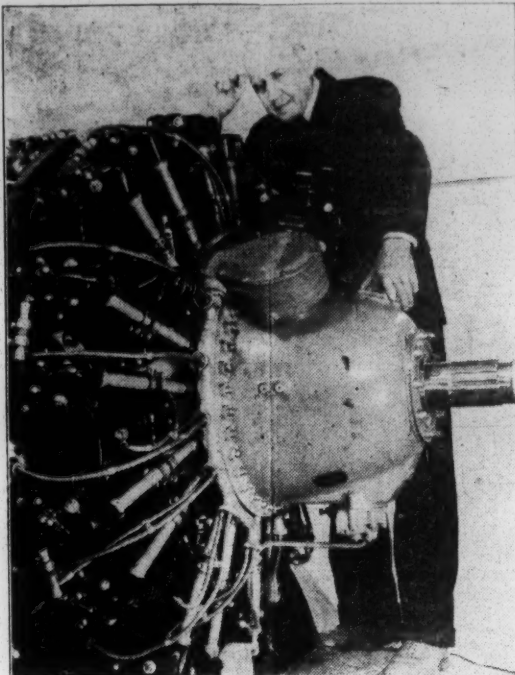

Whereas this Board at its September, 1941, meeting will prepare and thereafter publish the budget of this City as provided by law and ordinance and said budget will set forth, among other things, the estimated expenses of this City which will include the salaries of the officers of this City for the year beginning on September 1st, 1941.

Whereas it is deemed proper and reasonable that the annual salaries of the Aldermen of this City should be increased as herein provided and that such proposed increase expenditure by the City should be set forth in said estimate in the City budget aforesaid.

It is, therefore, resolved and ordained that for the year beginning September 1st, 1941, the salary of the Aldermen of this City shall be, and hereby is fixed and designated at the sum of three hundred dollars, each, to be paid in twelve equal monthly installments of twenty-five dollars, of which one-half shall be paid from the General Fund and one-half from the Water Fund of said City.

It is further resolved and ordained that this resolution or ordinance be published one time in a qualified newspaper published in this City and that it take effect and be in force from and after September 1st, 1941, and that the order of this Board providing for said salaries adopted heretofore at this meeting be repealed.

## Kitty Hawk Was Nothing Like This

DEARBORN, Mich.—Memories of the mechanical heartbreaks at Kitty Hawk returned for 73-year-old Charles Taylor (above) as he viewed this 2,000-horsepower airplane engine the Ford Rouge plant soon will produce for the army. Taylor was mechanic for Orville and Wilbur Wright when they tried and finally flew the first heavier-than-air plane in 1903 on the sand dunes of Kitty Hawk, N. C. He said the Wright plane was driven by a 200-pound engine that turned up only 12 horsepower. This mechanical giant weighs 2,350 pounds. Ford is rushing toward completion of a \$27,000,000 plant in which these powerful Pratt & Whitney engines will be built.

## Seen, Heard and Told By The Editor

One lady suggested that the 500 soldiers who will be here Sunday be provided with some checker boards and ping pong tables. All those boys need is a pair of dice and a place to roll 'em. Probably they will only need a place to roll 'em.

Fulton McFee, prominent citizen of the city to the west not only attended the picture show Sunday but made a return engagement to Grenada Monday.

Estes Maxwell has not lost his cunning with the smooth, round hickory stick, they say.

There are, of course, some serious minded soldiers perhaps more than we suspect, but many of them are primarily interested in wine, women and song, and would swap nine of the latter for one of either of the first.

Glad to hear that our young friend, Charles Perry, was not seriously hurt. Dr. Avert, J. H. Oliver, Bob Vandiver and Fred Bailey left Tuesday morning to join a party from Charleston, and these gentlemen will enjoy two days deep sea fishing aboard the boat belonging to Mr. J. L. Russell, of Jackson. Some of them carried hooks.

Our overser, George Terrell, spends a good deal of time looking after the skating rink.

For fear lest Joe Enderling did not receive his receipt through the mail, this is his receipt for a renewal.

Brother Fields paid in a fine watermelon his boy's subscription.

Butch McKnight seems to be making a pretty good tax assessor.

Since the power question has been placed in the cooler, Red Briscoe can devote all his attention to the Doxey campaign.

Which is the stronger, the United States or the labor racketeers and industrial racketeers? So far an unvarnished public has shown that the latter two are the stronger, and in the meantime the safety of the Nation is seriously endangered. We can no longer blame the troubles on Russian Communism, for we are now hand and glove with Red Russia.

May the Lord help us. The newest alphabetical nuisance is the OCCREBAR—Office for Coordination or Commerce and Cultural Relations Between the American Republics. We should form a new one, OSAAN—Office for the Suppression of American Alphabetical Nuisances.

People who have "an abiding faith in American institutions" had better start doing something other than singing "God Bless America" and making grudging contributions of old aluminum salt shakers.

This delightful weather of only 90 degrees certainly is a great relief.

If the silk shortage continues, those with skinny and fat legs can wear high top shoes and long skirts, but those with shapely ones can wear cotton, rayon, or nothing at all.

It is a great pity that we entering as we do to the great religious public, cannot publish the many far-well greetings given Clarence Burt at his 8-21-22nd.

### THE "SWEET ONES" MOVING ABOUT

Considerable moving about is to be seen among the nurses at Grenada Hospital in the immediate future. Miss McEachern left for Indiana Monday. Miss Davis will be graduated on August 31st and will go to Canton, Misses Haile, Brown, and Hemphill will go to East St. Louis on Sept. 1.

### LIONS TO HEAR ROBINSON

Mr. Jack Robinson, of Chicago, and now a guest of Captain O. W. Scott, of Duck Hill, will speak to the Lions Club (tomorrow (Friday) using, as a subject "South America."

### TO THE PEOPLE OF GRENADE

Of course, I am greatly disappointed that our Board of Aldermen did not see fit to consider further at this time the proposition of having a City owned light plant and distribution lines, due to possible scarcity of necessary materials now needed for Defense purposes.

But want to take this means of expressing my appreciation to those interested citizens of Grenada for their fine spirit of cooperation, and to state that though the matter is temporarily delayed, some day we will see Grenada operate its own light plant when the present Defense emergency has ended.

My heart is in Grenada, my heart is for Grenadians and I hope you will again be interested when this time of emergency will have ended.

Red Briscoe

### The Stork Flew By And Left...

a baby girl for Mr. and Mrs. N. R. Paschal at the Grenada Hospital Wednesday, August 20th, 1941.

The Holcomb Young Matron Club was given a luncheon party on Wednesday afternoon by Mrs. Moorhead. Refreshments were served to twelve young members of the club at the Grenada Drug Store.

J. M. Clark, NE 1/4 and NE 1/4 NW 1/4, Sec. 17, State and County Tax \$8.80, Total Tax \$9.81.

and cultural growth of the entire city and community.

A special word should be said about the Deagan Chimes. They are the gift of Mr. and Mrs. Bryan Revell, Jr., as a memorial to their son, Joe Revell. These new type chimes are especially well in tone and may be played entirely independent of the organ. The church and town are indebted to Mr. and Mrs. Revell for this marvelous instrument, which really makes the organ complete. Through this sweet music from these beautiful chimes, the life of this gentle little city (who has come up to be with the Lord) will live on in the memory of the church and town, and thus will continue to be used of the Lord to lead the onward way.—Contributed.

### HORTON TO BELZONI BANK

David B. Horton, who stepped in and picked up the reins in St. Paul's Bakery while Mr. St. Paul was ill, has accepted a position with the Bank of Belzoni and left to start his new duties Monday morning. Mr. Horton was formerly in the banking business at Sturgis. His family will remain here for the present.

## OUR LOSS ...THE NATION'S GAIN

EACH one of the many men who are daily stepping out of the dress of the telephone worker into the uniform of our nation's defenders, is a distinct loss to the telephone organization, but a valuable asset to our nation's defense.

They are men already trained, self-disciplined and imbued with the true spirit of service which develops steadiness and self-reliance under the strain of emergencies. Bell Telephone workers acquire these characteristics through training, and the experience gained in maintaining the Bell System's ideals of service.

While these telephone men are performing their duties to the nation, they and their families feel secure in the knowledge that when their country no longer needs them in its armed services there is a place awaiting them with the telephone company.

At home are 25,000 telephone workers, who, though not wearing the uniforms of our nation's defenders, are working harmoniously to expand and safeguard the lines of telephone communication so vital to the nation's defense program.
